Social Services Estimating Conference Medicaid Caseloads and Expenditures February 12 and March 4, 2015 Executive Summary

The Social Services Estimating Conference convened on February 12, 2015 to adopt a revised Medicaid caseload projection and reconvened on March 4, 2015 to update the expenditure projections for Fiscal Year 2014-15 and Fiscal Year 2015-16.

Caseload Estimating Conference—The Conference adopted a caseload projection for Fiscal Year 2014-15 that was 7,703 (0.21%) lower than the one adopted in November 2014, and increased the projection for Fiscal Year 2015-16 by 1,946 (0.05%). Changes related to the Patient Protection and Affordable Care Act (PPACA) had a significant impact on the June 2014 forecast, but the impact moderated with results of the November 2014 conference and this conference. Still persisting are the impacts of coding modifications to the FLORIDA system and new entrants through the federal health insurance exchange, as well as the transition to the use of the Modified Adjusted Gross Income (MAGI) as the basis for Medicaid eligibility determination, all of which continue to result in the need for caseload adjustments for several eligibility categories. The 'TANF', 'Categorically Eligible,' and 'Medically Needy' groups required smaller adjustments than were necessary for the November 2014 conference, with changes in caseload estimates now ranging from -6.28% to +3.37% in FY 2014-15 and -10.20% to +5.42% in FY 2015-16. The most substantial adjustment to this caseload forecast was seen in the 'Children >100% Federal Poverty Level (FPL)' category. At the November 2014 conference, the forecast included an anticipated shift of 44,000 children from the 'TANF' category to the 'Children >100% FPL' category, but the actual data showed that these children were shifted instead to the 'Children <100% FPL' category. Therefore, the forecasts for the 'Children >100% FPL' category were adjusted by -28.67% in FY 2014-15 and -34.03% in FY 2015-16. The updated forecasts for the 'Children < 100% FPL' category include the 44,000 children; the shift is not readily apparent in the percentage change due to the large size of the eligibility group. Another large adjustment was seen in the 'General Assistance' category; this adjustment was due to recent actual caseloads that came in higher than projected at the previous conference.

With the forecast modifications, the new forecast anticipates a 7.7% increase in Medicaid caseloads in Fiscal Year 2014-15 over the prior fiscal year.

The table below summarizes the revisions to the forecast relative to the estimates adopted in November 2014.

		FY 2014-15		FY 2015-16					
Caseload Changes	New	Change	% Change	New	Change	% Change			
SSI	668,315	(1,759)	-0.26%	686,116	(2,792)	-0.41%			
MEDS Elderly & Disabled	40,504	253	0.63%	43,448	1,906	4.59%			
Medically Needy	32,231	(1,834)	-5.38%	32,016	(3,636)	-10.20%			
TANF	694,253	22,656	3.37%	742,205	38,192	5.42%			
Categorically Eligible	6,791	(455)	-6.28%	4,498	(5)	-0.11%

MEDS Pregnant Women >100% FPL	16,872	(388)	-2.25%	17,033	(954)	-5.30%			
MEDS Children <100% FPL	1,514,453	9,403	0.62%	1,573,311	18,317	1.18%			
MEDS Children >100% FPL	78,840	(31,696)	-28.67%	81,213	(41,884)	-34.03%			

Total	3,722,552	(7,703)	-0.21%	3,869,392	1,946	0.05%
General Assistance	14,131	1,263	9.81%	15,752	2,056	15.01%
Family Planning Waiver	59,532	673	1.14%	61,324	898	1.49%
Qualified Medicare Beneficiaries	390,733	(2,568)	-0.65%	410,628	(4,730)	-1.14%
Children Title XXI	114,706	(2,968)	-2.52%	109,018	(4,527)	-3.99%

Expenditure Estimating Conferences—The General Appropriations Act for FY 2014-15 reflected the realignment of expenditures specific to the Managed Long Term Care component of Statewide Medicaid Managed Care. The budget re-alignment of expenditures under Managed Medical Assistance was accomplished just prior to the December 2014 expenditure conference via the budget consultation review process as authorized in the Implementing Bill for SFY 2014-15 (Ch. 2014-53, L.O.F.). As with the Summer and Fall 2014 conference results, there are several issues to keep in mind when reviewing this forecast. While the expenditure estimates reflect what the Agency for Health Care Administration anticipates in terms of expenditures for Managed Medical Assistance, the caseload estimates in what will be the remaining fee-for-service components have not yet been fully adjusted. In addition, the detail for FY 2014-15 does not reflect a "steady state" of managed care implementation since the final areas of the state were not transitioned to managed medical assistance until August 1, 2014. Further "clouding" the fiscal implications of managed care implementation are the payment timing, enrollee "churn," and delayed requests for payment for previously rendered fee-for-service services for those individuals newly enrolled in managed care plans. As would be expected, the transition of Medicaid enrollees to managed care has had a dramatic impact on the forecast for expenditures in multiple service components within Medicaid that are impacted by the transition, especially Hospital Inpatient Services, Clinic Services, Prescribed Medicine, Physician Services, and Hospital Outpatient Services, though the changes required from one Conference to the next have moderated substantially with the availability of more expenditure data reflecting actual managed care experience.

Per the Special Terms and Conditions of the Medicaid 1115 demonstration waiver that was granted by federal CMS on July 31, 2014, which states the Low Income Pool (LIP) is extended only through June 30, 2015, LIP expenditures are not included in FY 2015-16 and subsequent years. Moreover, the expenditure estimates do not include the reductions specified in the PPACA that are scheduled to be taken to hospital disproportionate share funding since allocations of the reductions to individual states are not yet known. However, this forecast does include costs associated with the children's caseload growth to the Medicaid program resulting from PPACA.

The Conference revised the total estimate of expenditures for Fiscal Year 2014-15 upward from the previous forecast to \$23,520.5 million (8.0% above the FY 2013-14 expenditures). The new forecast is lower than the modified appropriation for FY 2014-15 by \$59.4 million. The updated estimate is largely driven by increases in the estimated expenditures for Hospital Inpatient Services, Clinic Services, and Nursing Home Care, and reductions in the estimated expenditures for those services impacted by the transition of enrollees to managed care. Overall, the new forecast anticipates a surplus in General Revenue funds for the current year of \$150.6 million.

For Fiscal Year 2015-16, program expenditures are expected to decrease to \$21,955.6 million (6.7% below the revised fiscal year 2014-15 estimate); this level is higher than expected in December 2014. The revised General Revenue requirement for Fiscal Year 2015-16 is \$93.4 million above the FY 2015-16 appropriation base.

Expenditure Forecast (millions)	FY 2014-15 Forecast	Surplus/Deficit	FY 2015-16 Forecast	Comparison to Appropriation Base
General Revenue	\$5,142.9	\$150.6	\$5,385.1	(\$93.4)
Medical Care TF	12,954.1	326.9	12,043.2	1,238.4
Refugee Assistance TF	39.4	0.5	43.7	(3.8)
Public Medical Assistance TF	583.7	0.0	592.5	(8.8)
Other State Funds	476.4	1.3	463.8	14.9
Grants and Donations TF	3,237.1	(420.0)	2,317.0	500.1
Health Care Trust Fund	780.2	0.0	803.7	(23.5)
Tobacco Settlement TF	306.7	0.0	306.7	0.0
Total	\$23,520.5	\$59.4	\$21,955.6	\$1,623.9

Federal Medical Assistance Percentage—Based on new population and income data for the nation and for Florida, the Conference made modifications to the expected Federal Medical Assistance Percentage levels used for state budgeting purposes. The percentages for FY 2014-15 and FY 2015-16 were unchanged at 59.56% and 60.51%, respectively.

- (A) Elderly or disabled individuals of low income who are determined eligible for Supplemental Security Income as determined by the Social Security Administration
- (B) Individuals in single-parent low-income families who meet the AFDC eligibility standards effective in September 1996 or meet TANF eligibility guidelines
- (C) Unemployed parents and children under 18, children under 21 in intact families, or children born after September 1983 living with non-relatives, where family income meets TANF standards
- (D) Individuals who meet SSI or TANF eligibility after expenses for medical care are deducted
- (E) This category is 100% federally funded and covers the first eight months in the U.S. for individuals who generally meet the TANF and SSI eligibility requirements.
- (F) Elderly and disabled individuals with income above the criteria for Supplemental Security Income but less than 90% of the Federal Poverty Level
- (G) Medicaid covers certain Medicare-related expenses for elderly and disabled individuals between 90-120% of the Federal Poverty Level.
- (H) Pregnant women under 100% of the Federal Poverty Level and children age 6 and older in families under 100% of the Federal Poverty Level
- (I) Children age 1 to 6 under 133% of the Federal Poverty Level; pregnant women and infants less than one year old with incomes less than 185% of the Federal Poverty Level
- (J) Family planning and family planning-related services for women ages 14–55 with family incomes under 191% of the Federal Poverty Level and no pregnancy coverage
- (K) Children born after January 1993 under age 19 and under 100% of the Federal Poverty Level; children under 200% of the Federal Poverty Limit and under 1 year of age; and newly eligible children under the Affordable Care Act.

Forecasted Medicaid Caseloads by Category for FY 2014-15

LONG-TERM MEDICAID SERVICES AND EXPENDITURES FORECAST

FY 2014-15 through FY 2018-19

SOCIAL SERVICES
ESTIMATING CONFERENCE
OF
March 4, 2015

REVISED PER CONFERENCE

NOTES:--This forecast includes costs associated with the children's caseload growth to the Medicaid program resulting from the Patient Protection and Affordable Care Act. Not included are the reductions in the Act that are scheduled to be taken to hospital disproportionate share funding, as allocations of the reductions to individual states are not yet known. This forecast does adjust to account for the phase-in of enrollment under the managed long term care and managed medical assistance components of Statewide Medicaid Managed Care. Per the Special Terms and Conditions of the Medicaid 1115 demonstration waiver that was granted by CMS on July 31, 2014, which states the LIP is extended through June 30, 2015, expenditure estimates for FY 2015-16 through FY 2018-19 do not include LIP expenditures. The forecast does assume continuation of Intergovernmental Transfers (IGTs) for Hospital Inpatient, Hospital Outpatient, and Managed Care expenditure estimates based on historical collections of this funding for rate enhancements. A revision to future estimates may be required based upon future guidance and approvals from CMS related to LIP and rate enhancements. Revisions may also be required based on any reduction in IGT commitments from contributors.

FY2016-17	0.6118	0.6117	-0.0001	0.6127	0.9589	0.6112	Confirmed for July - September; Estimated for remainder
FY2017-18	0.6141	0.6133	-0.0008	0.6134	0.9594	0.6132	Estimated
FY2018-19	0.6155	0.6150	-0.0005	0.6153	0.9607	0.6148	Estimated
FY2019-20	0.6172	0.6174	0.0002	0.6178	0.7325	0.6172	Estimated

^{1.} The federal fiscal year percentages used in calculating the estimated federal share of Medicaid matching funds as budgeted by state fiscal year are subject to future revision depending on changes to the forecasts of Florida and U.S. personal income and population. The personal income and population figures used in this forecast are based on the National and Florida economic forecasts and the Florida demographic forecast as adopted in February 2015.

^{2.} The State budgeted FMAP shown above is a blended rate designed to take account of the estimated distribution of Medicaid payments among months.

^{3.} The FMAP as shown in the FMAP resulting from the source data, confirmed when data available, otherwise estimated.

^{4.} The Enhanced FMAP is the matching rate used for the Title XXI funded Child Health insurance Program, Florida's KidCare program. The add-on to the Enhanced FMAP is time-limited per the ACA (October 1, 2015 through September 30, 2019).

^{5.} The State FY real time FMAP blend is the calculated from the two FFY FMAPs; 1/4th of the prior year FFY FMAP + 3/4ths of the current year FFY FMAP.

CALCULATION OF BASE FEDERAL MEDICAL ASSISTANCE PERCENTAGE

Federal Medical Assistance Percentage formula:

[1-.45] X 3 yr avg Florida per capita personal income 2
3 yr avg U.S. per capita personal income 2

confirmed per Fed Register, Nov 2012, not estimated confirmed per Fed Register, Jan 2014, not estimated confirmed per Fed Register, Jan 2014, not estimated confirmed per Fed Register, Dec 2014, not estimated

Because the Economic Estimating Conferences produce estimates of Florida and U.S. population and personal income that are different in definition and timing than the data from the Bureau of Economic Analysis (upon which the formula is based), it is necessary to convert the Estimating Conference forecasts to a BEA-type definition. This is accomplished by applying the growth rates of the relevant variables from the National and Florida Economic Estimating Conference forecasts to the BEA income and population history.

^{*}Private Insurance is any plan that is not Medicare, Medicaid, Tri-Care, VA or Indian Health Care. These plans are collectively referred to as Public Insurance.

Social Services Estimating Conference

Estimates Related to Federal Affordable Care Act: Title XIX (Medicaid) & Title XXI (CHIP) Programs

ADOPTED
REVISED PER CONFERENCE
March 7, 2013

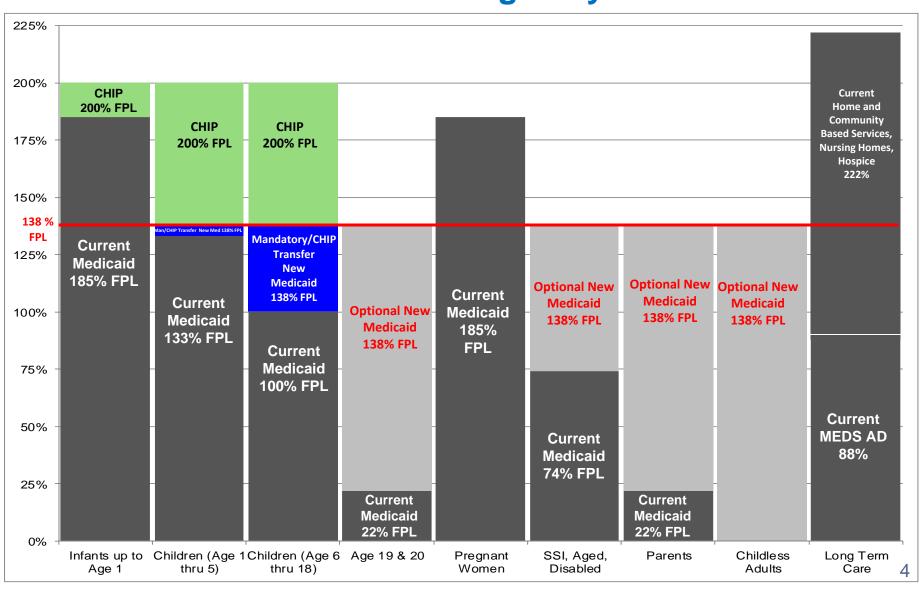

Scope of Analysis

Assumptions Related to Medicaid and CHIP

KEY ELEMENT	Affordable Care Act
FMAP/ Current Eligibility Level (EXISTING PROGRAM)	Regular FMAP (58.67%) for SFY 13-14, (58.93%) for SFY 14-15, (59.22%) for SFY 15-16 and (59.31%) thereafter. Based on 2/13 FMAP Calculation.
Medicaid Expansion (OPTIONAL PROGRAM)	Expand eligibility to 138% Federal Poverty Level – beginning 1/1/2014 •138% FPL for a family of 4: \$32,499 (2013)
FMAP/ Medicaid Expansion (OPTIONAL PROGRAM)	Provides for enhanced FMAP for expansion population: •100% CY 2014 •100% CY 2015 •100% CY 2016 •95% CY 2017 •94% CY 2018 •93% CY 2019 •90% CY 2020 and beyond
CHIP Transition (MANDATORY PROGRAM)	Children under 138% FPL move from Title XXI CHIP Program to Title XIX Medicaid program. The regular CHIP EFMAP (71.03%) for SFY 13-14, (71.24%) for SFY 14-15, (71.44%) for SFY 15-16 and (71.51%) thereafter received for these children. Based on 2/13 FMAP Calculation.
FMAP/ CHIP (EXISTING PROGRAM)	Anticipated enhanced FMAP for CHIP Population begins 10/1/2015 (138% Federal Poverty Level and above) •10/1/2015: 71.52+23.0=94.52%
CHIP/ Eligible but Not Enrolled (EXISTING PROGRAM)	Since the analysis begins on July 1, 2013 (2013-2014 State Fiscal Year), and the enhanced CHIP FMAP does not begin until 10/1/2015, the following FMAP levels are used for CHIP eligible but not enrolled based on 3/13 FMAP calculation: •71.03% SFY 2013-2014 •71.24% SFY 2014-2015 •88.69% SFY 2015-2016 •94.52% SFY 2016-2017 and beyond
Increased Rate for Practitioners(BOTH PROGRAMS)	100% federal funded increase to select codes for primary care providers for 2013 and 2014. This impacts approximately 35% of primary care codes under the Florida Medicaid Program. The estimates for the primary care fee increase reflect the details included in the November 2012 CMS rule relating to the fee increase.

Existing and Optional Medicaid / CHIP Eligibility Levels

Cost Assumptions for Medicaid Expansion

- The 2009-2011 3-Year American Community Survey (Public Use Microdata Sample) used for all populations except the Mandatory New Medicaid.
- The eligible population will increase each year by the annual growth rate in the total population of Florida for the Medicaid and CHIP Eligible but not Enrolled populations and the Newly Eligible population.
- The cost in per member per month (PMPM) will increase each year by the Chained Price Index for Medical Services.
- There will be an annual Health Insurance Tax (HIT) imposed on Medicaid Managed Care rates.
- Impacts are not included for the potential monthly user fee to support the operation of the Federal Exchange which may be a 3.5 percent of premium charge.
- Impacts are not included for the changes to the state disproportionate share allowances which will be phased down for a seven year period beginning with FFY 2014.
- Changes to the federal pharmacy rebate are already built-in to the underlying Medicaid estimates.

Assumptions: Eligible but not Enrolled under Existing Program

- Based on 2009-2011 3-Year American Community Survey (Public Use Microdata Sample).
- Phase-in assumptions:
 - Even though it cannot be determined how many people who are eligible but not enrolled will
 ultimately enroll in Medicaid or CHIP, a minimum of 25% of the total eligible but not enrolled
 children is assumed in each state year beginning January 1, 2014. Adults are indeterminate.
 - The Conference assumes 25% of likely new enrollees for the first state fiscal year (SFY 2013-14) if expansion is exercised beginning 1/1/2014.
 - The Conference assumes 50% of likely new enrollees for the second state fiscal year (SFY 2014-15) of expansion beginning 7/1/2014.
 - The Conference assumes 75% of likely new enrollees for the third state fiscal year (SFY 2015-16) of expansion beginning 7/1/2015.
 - The Conference assumes 100% of likely new enrollees for the fourth state fiscal year (SFY 2016-17) of expansion and beyond (beginning 7/1/2016).
- The eligible population will increase each year by the annual growth rate in the total population of Florida.
- By fiscal year, this phase-in translates as follows:

_	SFY 2013-2014:	25%
_	SFY 2014-2015:	50%
_	SFY 2015-2016:	75%
_	SFY 2016-2017 and beyond:	100%

Assumptions:

Newly Eligible Population under Expansion Option

- Based on 2009-2011 3-Year American Community Survey (Public Use Microdata Sample).
- Phase-in assumptions:
 - The Conference assumes that only 79.7% of the eligible population will present for services:
 - Experience with the current Medicaid program indicates that only 79.7% of the population has availed themselves of available services.
 - Employers may provide new coverage that provides an alternative.
 - The Conference assumes 50% of likely new enrollees for the first state fiscal year (SFY 2013-14) if expansion is exercised beginning 1/1/2014.
 - The Conference assumes 65% of likely new enrollees for the second state fiscal year (SFY 2014-15) of expansion beginning 7/1/2014.
 - The Conference assumes 85% of likely new enrollees for the third state fiscal year (SFY 2015-16) of expansion beginning 7/1/2015.
 - The Conference assumes 100% of likely new enrollees for the fourth state fiscal year (SFY 2016-17) of expansion and beyond (beginning 7/1/2016).
- The eligible population will increase each year by the annual growth rate in the total population of Florida.
- By fiscal year, the phase-in translates as follows:

_	SFY 2013-2014:	50%
_	SFY 2014-2015:	65%
_	SFY 2015-2016:	85%
_	SFY 2016-2017 and beyond:	100%

SFY 2016-2017 and beyond:

Assumptions: Crowd Out Population under Expansion Option

- Based on 2009-2011 3-Year American Community Survey (Public Use Microdata Sample) grown to get a FY 2013-14 equivalent.
- The Conference assumes enhanced FMAP would be received for these enrollees.
- Phase-in assumptions:
 - The Conference assumes that 150,751 persons under 138% FPL who are currently purchasing insurance directly from an insurance company (excluding the availability of any other insurance coverage) will enroll in Medicaid if the Expansion Option is adopted. This is a subset of all persons purchasing some form of private insurance because:
 - Employers may provide new coverage that provides an alternative.
 - The Conference assumes 40% of these enrollees for the first state year (SFY 2013-14) if expansion is exercised beginning 1/1/2014.
 - The Conference assumes 80% of new enrollees for the second state fiscal year (SFY 2014-15) of expansion beginning 7/1/2014.
 - The Conference assumes 100% of new enrollees for the third state fiscal year (SFY 2015-16) of expansion and beyond (beginning 7/1/2015).
- By fiscal year, this phase-in translates as follows:

- SFY 2013-2014: 40%

- SFY 2014-2015: 80%

SFY 2015-2016 and beyond: 100%

Assumptions: Impact to CHIP Population

- Children transitioning from CHIP to Medicaid under Mandatory Expansion:
 - Assumed that for children under 138% FPL who move from CHIP to Medicaid, Florida will receive regular CHIP EFMAP.
- Utilized the Medicaid PMPM from February 25, 2013, SSEC estimate for SFY 2013-14:
 - SOBRA Children to 100% FPL for Children:

\$147.82

- This would equate to no change in estimated expenditures due to the programmatic change for these beneficiaries.
- CHIP eligible but not enrolled population:
 - For these children Florida will receive enhanced CHIP EFMAP.
- For the recurring CHIP children the enhanced EFMAP will likely apply as well.

Assumptions: Impact to CHIP Population

- Assume phase-in for CHIP Population based on growth rates from the February 15, 2013 Kidcare SSEC:
 - On January 1, 2014: 29% of Healthy Kids CHIP children will move to Medicaid (based on current distribution of children by Income Level). For future years it is assumed that the number of children will grow in Medicaid at:
 - 2.4% for SFY 2013-14
 - 3.2% for SFY 2014-15
 - 4.0% for SFY 2015-16
 - 4.4% for SFY 2016-17 and beyond.
 - On January 1, 2014: 28% of Children's Medical Services CHIP children will move to Medicaid (Based on current distribution of Children's Medical Services children by Income Level). For future years it is assumed that the number of children will grow in Medicaid at:
 - 1.1% for SFY 2013-14 and beyond.
 - On January 1, 2014: 11.2% of Medikids CHIP children will move to Medicaid (Based on current distribution of Medikids CHIP children by Income Level). For future years it is assumed that the number of children will grow in Medicaid at:
 - 0.6% for SFY 2013-14
 - 0.8% for SFY 2014-15
 - 1.0% for SFY 2015-16
 - 1.1% for SFY 2016-17 and beyond.
 - Beginning January 2014, Full Pay Program Growth for both Healthy Kids and MediKids CHIP will stop and 5% of Full Pay Enrollment as of December 2013 10 will migrate to an Exchange each month (assumption).

Assumptions Related To Primary Care Practitioners

- The final CMS rule relating to the primary care fee increase was released in November 2012.
 - Provides that certain physicians that provide eligible primary care services will be paid the Medicare rates in effect in calendar years (CY) 2013 and 2014.
 - Increased payment applies to primary care services delivered by a physician with a specialty designation of family medicine, general internal medicine, or pediatric medicine or related.
 - In addition to the specialty types listed above the increased payment is available to:
 - Board certified subspecialists.
 - Any provider type who has 60% of their Medicaid claims in evaluation and management.
 - States will receive 100 percent FMAP for the difference between the Medicaid State Plan payment amount as of July 1, 2009 and the applicable Medicare rate.

Assumptions Related to Health Insurance Tax (HIT)

- Health insurer fee estimates based on fee as described in the March 21, 2010 report prepared by the staff of the Joint Committee on Taxation, and incorporating impact of Statewide Medicaid Managed Care (SMMC) roll-out.
 - Assumes all contracted Managed Care Plans are for-profit (non-profit entities are exempt from fee).
 - Assumes it does not apply to Long-term Care as the fee does not apply to "long-term care insurance."
 - Used SFY 2011-12 counts of SMMC eligibles and projected through SFY 2015-16 using the Social Services Estimating Conference's prepaid caseload growth rates. Used the annual growth rate in total population of Florida for future years.
 - The SFY 2014-15 capitation rate is based on preliminary SMMC capitation rates received from the Agency's contracted actuaries and projected future years using the Social Services Estimating Conference's prepaid unit cost growth rates of 4%.
 - The health insurance fee load percentages are estimates based on material received from Milliman.

Calendar Year 2014: 1.40%

Calendar Year 2015 and beyond: 2.50%

General Assumptions

Expenditures:

- Expenditures are based on February 25, 2013, SSEC estimate for SFY 2013-14 and then increased by the Chained Price Index for Medical Services.
- FMAP used is based on estimates from February 25, 2013, FMAP
 Estimating Conference for SFY 2013-14, SFY 2014-15, SFY 2015-16, and SFY 2016-17 then held flat for remainder of analysis.

Caseload:

- The Newly Eligible/Expansion, Eligible but not Enrolled/Existing
 Uninsured, and Crowd Out caseload is based on 2009-2011 3-Year
 American Community Survey (Public Use Microdata Sample) regarding
 the uninsured.
- Increased each year by the annual growth rate in the total population of Florida for the Newly Eligible population and the Eligible but not Enrolled population.

PMPM Cost Calculations

 The cost calculations use the following Medicaid PMPMs from February 25, 2013, SSEC estimate for SFY 2013-14:

Under 1 for Children Under 1: \$375.18
SOBRA Children to 100% FPL for Children: \$147.82
SOBRA Pregnant Women to 100% FPL for Pregnant Women: \$842.88
TANF Adults for Adults: \$339.72
SSI for SSI, Aged, Disabled: \$1,513.43

Based on the above PMPM details:

– Infants: \$375.18 Age 1-5: \$147.82 Age 6-18: \$147.82 Age 19-20: \$339.72 Pregnant Women: \$842.88 - SSI: \$1,513.43 – Parents: \$339.72 Childless Adults: (\$339.72 x 1.6) \$543.55

Summary Impact for Expansion: Affordable Care Act: Existing, Optional & Mandatory Expansion
