(1) If the constitutional amendment does not pass, the impact is zero. If approved, the Conference assumes that there is no change in the jurisdictions offering this exemption and the impact would be the middle estimate with the fifth year recurring being the recurring impact:

	School		Non-School		Total Local/Other	
	Cash	Recurring	Cash	Recurring	Cash	Recurring
2023-24	0.0	0.0	0.0	(5.7)	0.0	(5.7)
2024-25	0.0	0.0	0.0	(5.7)	0.0	(5.7)

2026-27	0.0	0.0	(4.7)	(5.7)	(4.7)	(5.7)
2027-28	0.0	0.0	(5.7)	(5.7)	(5.7)	(5.7)

(2) If the constitutional amendment does not pass, the impact is zero. If approved, because the amendment is self-executing, the impact would be negative indeterminate due to the inherent forecasting complexities between market conditions and the CPI. Using Fiscal Year 2022-23 as a case study, the Save Our Homes Cap moved from 1.4% in the prior year to the 3% maximum cap. Had the maximum cap been 2% as proposed by the bill language, the impact would have been nearly \$150 million in that one year. Going forward, this impact will be persistent. Further, multiple years of CPI exceeding 2% would result in stacking impacts.

(3) - There is a current year impact of (\$6.8m).

(4) - There is a current year impact of (\$22.9m).

(5) - There is a current year impact of (\$22.9m).

(6) - The Conference adopted the low estimates as a least as impact, but notes that the actual impact could be significantly higher. Uncertainty regarding how much higher is unclear because how many of these assessments are actually pledged is unknown. Further, the impact does not include the non-ad valorem assessments which are collected by uniform method.
