

**Revenue Estimating Conference
Slot Machine Revenues
February 19, 2015
Executive Summary**

The Revenue Estimating Conference reviewed slot machine revenues on February 19, 2015, and increased projections from the November 2014 conference by \$3.2 to \$3.5 million each fiscal year. The details of the forecast and changes are shown in the following table.

Slot machine tax revenues were \$2.1 million over estimate for December 2014 through February 2015. The conference improved the revenue forecast for six of the seven facilities for Fiscal Year 2014-15 based on positive performance fiscal-year-to-date compared to the same time period in prior years. Projected revenues at the Calder facility were decreased slightly, but still represent an increase over the previous fiscal year. The growth rates in subsequent fiscal years remained the same as the November 2014 forecast for all facilities.

Dania opened on February 20, 2014, but closed shortly thereafter on October 12, 2014. It has been reported that the Dania facility will re-open in December 2015, after it has been renovated. However, the Conference decided to remove any revenue estimates for Dania from the forecast, due to uncertainty about an opening date, the number of machines, and the income level per machine.

NOTE: The Fiscal Year 2012-13 revenue of \$142.2 million is based on actual collections received during Fiscal Year 2012-13. Because the state switched from weekly to monthly collections at the end of Fiscal Year 2011-12, the July 2013 collections are made up of only one week of June 2013 revenue. This resulted in a one time impact lowering the Fiscal Year 2012-13 revenues by approximately three weeks of collections.

* The FY2012-13 revenue of \$142.2 million is based on actual collections received during FY2012-13. Because the state switched from weekly to monthly collections at the end of FY2011-12, the July 2013 collections are made up of only one week of June 2013 revenue. This is expected to have a one time impact lowering the FY2012-13 revenues by approximately three weeks of collections. The income per machine per day is based on actual DBPR activity data for FY2012-13.

NOTE: Dania opened on February 20, 2014 and closed October 12, 2014. It has been reported that the facility will undergo renovations and will be re-opened no earlier than December 2015. Because of the uncertainty about a re-opening date, the number of machines in the renovated facility, and the income level per machine, this forecast does not include any revenues generated from Dania at this time.

* The FY2012-13 revenue of \$142.2 million is based on actual collections received during FY2012-13. Because the state switched from weekly to monthly collections at the end of FY2011-12, the July 2013 collections are made up of only one week of June 2013 revenue. This is expected to have a one time impact lowering the FY2012-13 revenues by approximately three weeks of collections. The income per machine per day is based on actual DBPR activity data for FY2012-13.
