

## Revenue Estimating Conference for Unclaimed Property and Transfers to the State School Trust Fund

### Executive Summary

The projection of receipts and refunds from unclaimed property and the subsequent distribution into the State School Trust Fund were revised December 16, 2015, by the Revenue Estimating Conference.

Through the end of November, actual state receipts are running approximately \$11.2 million above the projection based on historical averages. Likewise, actual refunds to owners are running above historical averages, by approximately \$6.2 million. Since the July Conference, the Department of Financial Services loaded the majority of the Fiscal Year 2014-15 reports into its database and provided information on both receipts and refunds by property type. Based on this information, the Conference reduced the assumed amount of Fiscal Year 2014-15 “atypical” receipts from \$72.3 million to \$55.0 million. This adjustment increased the level of “typical” receipts that is the basis for the Fiscal Year 2015-16 forecast. The Conference adopted an estimate of \$427.1 million in receipts for Fiscal Year 2015-16, which is an increase of \$17.1 million over the previous estimate. The Conference adopted an estimate of \$265.7 million for refunds to owners in Fiscal Year 2015-16, which is \$10.0 million higher than the previous estimate.

For Fiscal Year 2016-17 and after, the Conference used a 5.0% annual growth rate for receipts and maintained the 65.6% refunds rate used for the Fiscal Year 2015-16 estimate. The refunds rate is applied to the average of the two prior years of receipts. Based on these assumptions, the Conference adopted an estimate of \$448.5 million for receipts and \$280.1 million for refunds for the 2016-17 fiscal year.

The table below shows the differences from the previous estimate.
