

**Voluntary Prekindergarten Estimating Conference
Executive Summary
January 5, 2012**

The Voluntary Prekindergarten Estimating Conference met on January 5, 2012 to review 2010-11 and 2011-12 school year and 2011 summer data through November 30, 2011. In addition, the conference discussed the impact of CS/HB 1505 from the 2010 Legislative Session with regard to the Specialized Instructional Services Program (SISP) which takes effect for the 2012-13 school year. Based on recent data and the impact of SISP, the conference adopted new enrollment estimates and forecasts for the Voluntary Prekindergarten Program (VPK) for 2010-11 through 2015-16.

Enrollment and full-time equivalent (FTE) enrollment data for program year and Fiscal Year 2010-11 are preliminary. For the 2010-11 program year, it is estimated that 76.5% of eligible four year olds participated in the VPK program. The participation rate is anticipated to increase to 81.87% for the 2011-12 program year and reach 86.04% by the 2012-13 program year. The participation rate for the 2012-13 program year includes the impact of the SISP based on the assumptions listed below.

The assumptions for the forecasts through 2015-16 are:

- Participation rates will continue to increase reaching 89% by 2015-16.
- Enrollment in the summer program is expected to remain at 8,299, the same as summer 2011 enrollment, throughout the forecast time period. Round-up calculations for summers 2012 through the end of the forecast horizon are held constant at 2011 levels.
- Starting with the 2012-13 school year the Specialized Instructional Services Program will impact both enrolment and FTE for both school year and summer. The impact of this program will be phased in; with approximately 50% of the school year impact in 2012-13 and 100% in the remaining forecast school years and all summer periods.

The estimates and forecasts, starting with school year 2011-12, utilize the most recent ratio of enrollment to FTE (2010-11 school year and 2011 summer). The revised fiscal year FTEs are shown immediately below. The increases in enrollment and FTE were due to stronger enrollment in the VPK program in 2011-12 school year to date and the impact of the SISP.

Assumptions		
Population Participation	Reach 80% participation by 2012-13.	Participation rates will continue to increase reaching 89% in 2015-16.
Summer Growth	Summer enrollment will remain at the 2011 level.	Summer enrollment will remain at the 2011 level.
Summer Providers	Only counties that offered summer 2011 will offer summer programs in the future. Summer round-up for the forecast years is held constant at 2011 summer round-up levels.	Only counties that offered summer 2011 will offer summer programs in the future. Summer round-up for the forecast years is held constant at 2011 summer round-up levels.
Relationship of Full Time Equivalent (FTE) Enrollment to Enrollment	Constant relationship based on preliminary 2010-11 school year and 2011 summer programs.	Constant relationship based on preliminary 2010-11 school year and 2011 summer programs.
Specialized Instructional Services Program (SISP)		Starting with the 2012-13 school year this program will impact both enrollment and FTE for both school year and summer. The impact of this program will be phased in; with approximately 50% of the school year impact in 2012-13 and 100% for remaining forecast school years and all summer periods.

Terminology

Terminology	
Enrollment	Headcount of students in a program; unduplicated state and duplicated counties.
Fiscal Year	July 1 - June 30 (Includes part of summer enrollment from two program years).
Full-Time Equivalent (FTE) Enrollment	One Full-Time Equivalent Enrollment represents one child enrolled for the entire program. FTE calculation is based on the number of hours paid divided by 540 or 300 depending on the child's program (either 540 for the School Year program or 300 for the summer program).
