The graph shows the number of juveniles in D.C. or jail from June 30, 1988, to June 30, 2005. The x-axis represents the years, with increments of one year. The y-axis represents the number of juveniles, ranging from 0 to 1,600. The graph is divided into three categories: Jails, D.C. Supervised, and Prisons. Jails show a peak around 1996, while D.C. Supervised has a more fluctuating trend. Prisons show a steady decrease over the years.
