Notes
All years through 2002-03 and the original 2003-04 figures include institutions in the State University System. The adjusted 2003-04 figures and all subsequent years do not include the SUS due to the devolution of university revenue from State Accounts to each university's local accounting system.

The figures shown in this document reflect the revenue limitation calculation as it was adopted by the Revenue Estimating Conference. Periodically, changes occur to the underlying data. While corresponding adjustments are made to the internal files used to forecast the future revenue limitation, they are not shown in this history. Two such adjustments include (1) a revision to the debt service deduction in FY 2013-14, which affected FYs 1994-95 through 2012-13 and (2) a revision to the Medicaid deduction in FY 2015-16, which affected FYs 2011-12 through 2014-15.
