# Revenue Estimating Conference <br> Ad Valorem Assessments <br> Last Conference Held: November 30, 2009 

## Executive Summary

Estimates of the statewide property tax roll are primarily used in the appropriations process to approximate the Required Local Effort (RLE) millage rate. This is the rate local school districts must levy in order to participate in the Florida Education Finance Program. The January 1, 2010 certified school taxable value is projected to be $\$ 1,468.8$ billion. This estimate is $\$ 51.5$ billion or 3.4 percent lower than the estimate of July 30,2009 . On an annual basis, it represents a 9.5 percent decrease from the January 1,2009 tax roll. After deducting the statutorily required discount rate of 5.0 percent, the value of one mill applied to the January 1,2010 estimate of school taxable value is $\$ 1.4$ billion, or in terms of revenue a $\$ 146.4$ million decrease. The actual RLE millage rate will be set after the legislative session.

* School taxable value includes Value Adjustment Board changes and other appraiser adjustments.
${ }^{* *}$ New construction is an addition to the tax base, and the Save-Our-Homes differential is a subtraction from the tax base.

County (non-school) taxable value is lower than school taxable value due to the greater number of exemptions available to property owners. In recent years, the Revenue Estimating Conference has been forecasting county taxable value separately from school taxable value. County taxable value on January 1,2010 is projected to be $\$ 1,366.6$ billion. On an annual basis, this represents a 10.0 percent decrease ( $\$ 151.1$ billion) from the January 1 , 2009 tax roll. The value of one mill applied to the January 1,2010 estimate of county taxable value is $\$ 1.4$ billion. In terms of revenue, this represents a $\$ 151.1$ million decrease from the prior roll.

Increased foreclosures and distressed sales that are pushing down prices, coupled with declining commercial real estate activity, have led to the changes in the estimates.
