Revenue Estimating Conference Ad Valorem Assessments Conference Held: August 5, 2013

Executive Summary

Estimates of the statewide property tax roll are primarily used in the appropriations process to approximate the Required Local Effort (RLE) millage rate. This is the rate local school districts must levy in order to participate in the Florida Education Finance Program. The 2014 certified school taxable value is now estimated to be \$1,468.61 billion. This represents an increase of \$38.62 billion or a 2.70% percent increase from the March 2013 forecast (\$1,429.99 billion). At 96 percent, the value of one mil is projected to be \$1,409.9 million.

Florida's housing market continues to show signs of moderate improvement. Overall, data from the Federal Housing Finance Agency price index show signs of improvement, particularly for highly valued properties. The new forecast, which is partially based on the latest residential data from Federal Housing Finance Agency, contains a somewhat moderate—but positive—growth rate for the state. The Conference remains concerned that the foreclosure rate and inventory of unsold residential properties in Florida are still high. In this regard, foreclosures are expected to add more units to the supply of housing, furthering weakening average sales prices of all homes on the market. In addition, the relatively low average sales prices for foreclosed homes depress values for neighboring property, hampering new residential construction. The conference was also cautious about the recent activity in the commercial construction sector. Taxable value is likely to have moderate positive growth in 2014 and gradually increase from that point onwards.

County (non-school) taxable value is lower than school taxable value due to the greater number of exemptions available to property owners. In recent years, the Revenue Estimating Conference has been forecasting county taxable value separately from school taxable value. County taxable value on January 1, 2014 is projected to be \$1,349.95 billion. On an annual basis, this represents an increase of \$29.36 billion or a 2.22% increase from the March 2013 forecast (\$1,320.59 billion).

Executive Director Marshall Stranburg

Child Support Enforcement Ann Coffin Director

General Tax Administration Maria Johnson Director

Property Tax Oversight James McAdams Director

Information Services Tony Powell Director July 10, 2013

Dr. Tony Bennett Commissioner of Education Turlington Building, Suite 1514 Tallahassee, Florida 32399

Dear Dr. Bennett:

As required by Section 1011.62 (4) (a) and (4) (b), Florida Statutes, enclosed are documents which provide the following information regarding the school district tax rolls:

- The Department of Revenue's most recent estimate of the 2013 taxable value for school purposes in each school district and the total for all school districts in the state. The total estimated 2013 taxable value for school purposes is \$ 1,421,431,895,940. This value is based on 66 preliminary reports and one estimate received from county property appraisers.
- The Department's most recent determination of the assessment level for each county's 2012 assessment roll and for the state as a whole.
- The taxable value for school purposes for each county that certified its tax roll pursuant to s. 193.122.(2) or (3), Florida Statues, after the final Florida Education Finance Program calculation for the applicable year. Values are included for the 2010, 2011 and the 2012 tax rolls.

If you have any questions concerning this information, please contact Andrew Collins at (850) 617-8854 or ptoresearch&analysis@dor.state.fl.us.

Sincerely,

Marshall Stranburg
