Revenue Estimating Conference Ad Valorem Assessments August 3, 2017 Executive Summary (revised August 22, 2017)

Estimates of the statewide property tax roll are primarily used in the appropriations process to approximate the Required Local Effort (RLE) millage rate. This is the rate local school districts must levy in order to participate in the Florida Education Finance Program. The 2017 certified school taxable value came in at \$1,903.62 billion. The final projection for 2017 was only \$3.14 billion or 0.17 percent higher than the previous estimate of \$1900.48 billion adopted in March 2017. At 96 percent, the value of one mil is projected to be \$1,827.47 million. As a result, the shape of the new forecast was virtually unchanged from the March forecast, with only modest changes to the projected growth rates.

Florida's housing market continues to drive the shape of the overall forecast. Recent residential data from the Federal Housing Finance Agency price index shows significant value growth in all parts of the state. The new forecast is premised on the belief this value growth will continue, although the pace will moderate in the out-years. This expectation is in line with the forecast adopted by the Florida Economic Estimating Conference.

County (non-school) taxable value is lower than school taxable value due to the greater number of exemptions available to property owners. In recent years, the Revenue Estimating Conference has been forecasting county taxable value separately from school taxable value. County taxable value on January 1, 2017 was \$1,735.40 billion. On an annual basis, this represents a decrease of \$2.89 billion or a 0.2 percent decrease from the March 2017 forecast (\$1,738.29 billion).

July 1, 2017 Certified School Taxable Value

The Honorable Pam Stewart Commissioner of Education Turlington Building, Suite 1514 325 West Gaines Street Tallahassee, Florida 32399

Dear Commissioner Stewart:

As required by Section 1011.62(4)(a) and (4)(b), Florida Statutes, enclosed are documents which provide the following information regarding the school district tax rolls:

- The Department of Revenue's most recent estimate of the 2017 taxable value for school purposes in each school district and the total for all school districts in the state. The total estimated 2017 taxable value for school purposes is \$1,903,618,856,087. This value is based on 67 preliminary reports received from county property appraisers.
- The Department's most recent determination of the assessment level for each county's 2016 assessment roll and for the state as a whole.
- The taxable value for school purposes for each county that certified its tax roll pursuant to Section 193.122(2) or (3), Florida Statutes, after the final Florida Education Finance Program calculation for the applicable year. Values are included for the 2015 and the 2016 tax rolls.

If you have any questions concerning this information, please contact Lizette Kelly at 850-617-8865 or <u>PTOResearchAnalysis@floridarevenue.com</u>.

Sincerely,

Siezalski
