#### Revenue Estimating Conference Ad Valorem Assessments December 11, 2018 Executive Summary

Estimates of the statewide property tax roll are primarily used in the appropriations process to approximate the Required Local Effort (RLE) millage rate. This is the rate local school districts must levy in order to participate in the Florida Education Finance Program. The 2018 certified school taxable value came in at \$2,033.79 billion or virtually on estimate (+0.2 percent higher than forecast). The new projection for 2019 is \$2,153.70 billion. It is \$119.90 billion or 5.9 percent higher than the 2018 actual number, and \$5.24 billion more than the previous estimate of \$2,148.46 billion adopted in July 2018. At 96 percent, the value of one mil is projected to be \$2,067.55 million. As a result, the shape of the new forecast was essentially unchanged from the July forecast, with only modest adjustments to the projected growth rates.

Florida's housing market continues to drive the shape of the overall forecast. Recent residential data from the Federal Housing Finance Agency price index shows value growth in all parts of the state. The new forecast is premised on the belief this value growth will continue, although the pace will moderate in the out-years. This expectation is in line with the forecast adopted by the Florida Economic Estimating Conference. In addition, preliminary adjustments have been made in the forecast to account for Hurricane Michael's projected impact on the local tax rolls.

County (non-school) taxable value is lower than school taxable value due to the greater number of exemptions available to property owners. In recent years, the Revenue Estimating Conference has been forecasting county taxable value separately from school taxable value. County taxable value on January 1, 2019 is projected to be \$1,986.33 billion. On an annual basis, this represents an increase of \$123.34 billion or a 6.62 percent increase from the 2018 actual (\$1,862.98 billion). However, it is \$59.59 billion less than the previous estimate of \$2,045.92 billion adopted in July 2018, largely because the approval of Florida Amendment 2 made the assessment cap on non-homestead properties permanent in November and this change has been incorporated in the new forecast.

July 13, 2018

The Honorable Pam Stewart Commissioner of Education Turlington Building, Suite 1514 325 West Gaines Street Tallahassee, Florida 32399

**Dear Commissioner Stewart:** 

As required by section 1011.62(4)(a) and (4)(b), Florida Statutes, enclosed are documents which provide the following information regarding the school district tax rolls:

- The Department of Revenue's most recent estimate of the 2018 taxable value for school purposes in each school district and the total for all school districts in the state. The total estimated 2018 taxable value for school purposes is \$2,033,794,751,313. This value is based on 67 preliminary reports received from county property appraisers.
- The Department's most recent determination of the assessment level for each county's 2017 assessment roll and for the state as a whole.
- The taxable value for school purposes for each county that certified its tax roll pursuant to section 193.122(2) or (3), Florida Statutes, after the final Florida Education Finance Program calculation for the applicable year. Values are included for the 2016 and the 2017 tax rolls.
