## Revenue Estimating Conference Ad Valorem Assessments August 5, 2019 Executive Summary

Estimates of the statewide property tax roll are primarily used in the appropriations process to approximate the Required Local Effort (RLE) millage rate. This is the rate local school districts must levy in order to participate in the Florida Education Finance Program. The 2019 certified school taxable value came in at \$2,169.72 billion or one percent higher than forecast. This gain was, in part, due to new construction which came in higher across the board. The new projection for 2020 is \$2,291.12 billion. The new estimate is \$121.40 billion or 5.6 percent higher than the 2019 actual number, and \$17.65 billion more than the previous estimate for 2020 of \$2,273.47 billion adopted in March 2019. At 96 percent, the value of one mil is projected to be \$2,199.48 million. As a result, the shape of the new forecast was essentially unchanged from the March forecast, with only modest adjustments to the projected growth rates.

Florida's housing market continues to drive the shape of the overall forecast. Recent residential data from the Federal Housing Finance Agency price index shows value growth in virtually all parts of the state. The new forecast is premised on the belief this value growth will continue, although the pace will moderate in the out-years. This expectation is in line with the forecast adopted by the Florida Economic Estimating Conference.

County (non-school) taxable value is lower than school taxable value due to the greater number of exemptions available to property owners. In recent years, the Revenue Estimating Conference has been forecasting county taxable value separately from school taxable value. County taxable value on January 1, 2019 came in at \$1,994.93 billion (only 0.74 percent higher than March estimate). The new projection for 2020 is \$2,120.65 billion. On an annual basis, this represents an increase of \$125.72 billion or a 6.30 percent increase from the 2019 actual. It is \$16.31 billion more than the previous estimate of \$2,104.34 billion for 2020 adopted in March 2019.

The Conference also discussed the 2019 losses to the eight counties most affected by Hurricane Michael (Bay, Calhoun, Franklin, Gadsden, Gulf, Jackson, Liberty and Washington). Ultimately, the Conference decided to make discrete adjustments only to Bay and Gulf counties. In total, \$229.5 million and \$47.6 million were added, respectively, to the model-generated county and school taxable value estimates for these two counties in 2020 due to their expected recovery efforts.

The Honorable Richard Corcoran Commissioner of Education Turlington Building, Suite 1514 325 West Gaines Street Tallahassee, Florida 32399

#### Commissioner Corcoran:

As required by section 1011.62(4)(a) and (4)(b), Florida Statutes, enclosed are documents which provide the following information regarding the school district tax rolls:

- The Department of Revenue's most recent estimate of the 2019 taxable value for school purposes in each school district and the total for all school districts in the state. The total estimated 2019 taxable value for school purposes is \$2,169,716,073,407. This value is based on 67 preliminary reports received from county property appraisers.
- The Department's most recent determination of the assessment level for each county's 2018 assessment roll and for the state as a whole.
- The taxable value for school purposes for each county that certified its tax roll pursuant to section 193.122(2) or (3), Florida Statutes, after the final Florida Education Finance Program calculation for the applicable year. Values are included for the 2018 and the 2017 tax rolls.

If you have any questions concerning this information, please contact me at 850-617-8950 or <u>Jim.Zingale@floridarevenue.com</u>.

Sincerely,

Jim Zingale
