Revenue Estimating Conference Ad Valorem Assessments August 2, 2021 Executive Summary

Estimates of the statewide property tax roll are primarily used in the appropriations process to calculate the expected Required Local Effort (RLE) millage rate. This is the rate local school districts must levy in order to participate in the Florida Education Finance Program. The 2021 certified school taxable value came in at \$2,443.19 billion. The new projection for 2022 is \$2,584.79 billion or \$119.71 billion higher than the previous estimate for 2022 of \$2,465.08 billion adopted in March 2021. At 96 percent, the value of one mil is now projected to be \$2,481.40 million.

Conditions in Florida's housing market are still important to the overall forecast, but they are not the singular driving factors they once were. The persistent economic effects from the Coronavirus outbreak have had and are expected to continue to have the most impact on the non-residential sector, as some commercial properties become vacant, idled or lower income-producing. As a result, the growth rate in total non-residential taxable value is lower than the residential sectors in the approved 2021 tax roll and is expected to be lower in 2022 as well. Annual growth rates remain relatively low in this sector through the rest of the forecast period. This expectation is in line with the forecast adopted by the Florida Economic Estimating Conference.

In contrast, expectations for the two residential sectors (homestead and non-homestead residential) provide a steadying influence over the forecast horizon. Recent residential data from the Federal Housing Finance Agency price index shows value growth in virtually all parts of the state. The new forecast is premised on the belief this value growth will continue in these residential sectors.

County (non-school) taxable value is lower than school taxable value due to the greater number of exemptions available to property owners. In recent years, the Revenue Estimating Conference has been forecasting county taxable value separately from school taxable value. County taxable value on January 1, 2021 came in at \$2,263.64 billion. The new projection for 2022 is \$2,407.69 billion. On an annual basis, this represents an increase of \$144.05 billion or a 6.36 percent increase from the 2021 actual. The revised estimate is \$104.04 billion higher than the previous estimate of \$2,303.64 billion for 2022 adopted in March 2021.

Florida Department of Revenue Office of the Executive Director

Jim Zingale Executive Director

5050 West Tennessee Street, Tallahassee, FL 32399

floridarevenue.com

July 13, 2021

The Honorable Richard Corcoran Commissioner of Education Turlington Building, Suite 1514 325 West Gaines Street Tallahassee, Florida 32399

Dear Commissioner Corcoran:

As required by section 1011.62(4)(a) and (4)(b), Florida Statutes, enclosed are documents which provide the following information regarding the school district tax rolls:

- The Department of Revenue's most recent estimate of the 2021 taxable value for school purposes in each school district and the total for all school districts in the state. The total estimated 2021 taxable value for school purposes is \$ 2,443,188,085,001. This value is based on 67 preliminary reports received from county property appraisers.
- The Department's most recent determination of the assessment level for each county's 2020 assessment roll and for the state as a whole.
- The taxable value for school purposes for each county that certified its tax roll pursuant to section 193.122(2) or (3), Florida Statutes, after the final Florida Education Finance Program calculation for the applicable year. Values are included for the 2019 and the 2020 tax rolls.

If you have any questions concerning this information, please contact me at 850-617-8950 or <u>Jim.Zingale@floridarevenue.com</u>.

Sincerely,

Jim Zingale

Executive Director

Jm Zm Sale
