2004-05

(\*) Insignificant (less than \$50,000)

(\*\*) Indeterminate

Items in bold have been changed since last version of the table

- (1) Assumes no off-setting change in millage rates by local governments.
- (2) Requires consitutional amendment. If the amendment were to pass, the annual statewide impacts would be: 2004-05, -\$87.0 m; 2005-06, -\$173.9m; 2006-07, -\$260.9m; 2007-08, -\$347.9 m; 2008-09, -\$434.8m
- (3) Requires local ordinance. If fully implemented statewide, the annual impacts would be: 2004-05, -\$3.4 m; 2005-06, -\$6.5m; 2006-07, -\$9.2m; 2007-08, -\$11.9m; 2008-09 -\$14.7 m
- (4) Legislation would be required to raise the statutory cap, and additionally the Northwest Florida Management District would have to raise the millage rate. The value of an additional .1 mill would be \$6.1 million.
- (5) If all eligible jurisdictions enact the levy, the statewide impact would be \$23.8m cash, \$26.0m recurring 2004-05, and \$27.4 m cash and recurring 2005-06
- (6) Requires constitutional amendment. If the amendment were to pass, and all cities and counties enact the exemption, the cost statewide in 2006-07 would be \$55.3 million.
- (7) Requires constitutional amendment. If the amendment were to pass, and all cities and counties enact the exemption, the cost statewide in 2006-07 would be \$36.4 million.
- (8) Requires local action. If all eligible counties levied the full amount allowed, the amount raised would be \$11.3 million cash, \$12.3 million recurring in 2004-05, and \$12.9 million in 2005-06.
- (9) Cash impact in 06-07 is \$79.6 million, 07-08 \$96.4 million.
- (10) If all counties were to levy, the tax would raise \$997.6 million in 2004-05 and \$2,527.3 million in 2005-06.
- (11) The maximum amount of credits allowed will be set annually by the Appropriations Act.
- (12) If all jurisdictions levy, the amount raised would be \$256.5m cash, \$439.7m recurring in 2003-04, \$463.9m cash and recurring in 2005-06
- (13) if all jurisdictions allowed the exemption, the statewide cost would be \$118.8m cash, \$175.6m recurring, in 2003-04, and \$176.9 cash and recurring in 2005-06
- (14)The impact is indeterminate because it eliminates the authority for local governments to pass ordinances and it is unknown to what exetent they would have done so in the absense of this legislation. It is estimated that the maximum amount lost should all governments impose the repealed rates would be \$352.5 million in 2004-05, and \$92.1 million on a recurring basis.
- (15) Requires constitutional amendment. If the amendment were to pass, and no jurisdictions adjusted millage rates, the cost statewide in 2006-07 would be \$1,904.2 million.

<sup>+-</sup> Indeterminate--may be positive or negative
