

Revenue Estimating Conference for Tobacco Settlement Payments
August 7, 2018
Executive Summary

The Revenue Estimating Conference met on August 7, 2018, to affirm the final results for FY 2017-18 and adopt a new forecast of Tobacco Settlement payments for the 2018-19 through 2032-33 fiscal years.

Tobacco settlement payments accrue to the state from a legal settlement agreement made on August 25, 1997, in response to a lawsuit between the State of Florida and several major tobacco companies. An annual payment is due by December 31 of each year, and a profit adjustment payment is made following the end of the participating companies' fiscal years. Both payments continue in perpetuity.

On January 18, 2017, the State of Florida filed a Motion to Join ITG Brands, LLC as a Defendant and to enforce the Settlement Agreement in State of Florida, et. al., v. Am. Tobacco Co., R.J. Reynolds Tobacco Co., et. al., No. 95-1466 AH (Fla. 15th Cir. Ct.). According to page 1 of the Motion, Florida was owed \$45 million (which had accumulated from June 2015 through the date of the filing) and would continue to suffer annual losses of approximately \$30 million absent the Court's enforcement of the settlement agreement. These projected annual losses are reflected as a \$15 million loss in FY 2015-16 and a \$30 million additional loss in each of the years thereafter, including the forecasted years. As of this date, active discussions are underway to reach agreement on how the actual losses to the State should be calculated. While there seems to be agreement in concept as to the methodology and number—and it approximates the losses reflected in this document in total (including the missed profit adjustment due in April 2018)—the proposed final judgment has not yet been submitted to the Court. For this reason, the prior treatment of approximating the losses in this package has been maintained.

At the point an agreement is accepted by the Court, a new Conference will be convened to reflect the actual losses in the adopted package. Because the likelihood that R.J. Reynolds will appeal the final decision is high despite any agreement among the parties as to methodology and numbers, the Conference has also removed the estimated profit adjustment payments due in April 2019 and April 2020 from the forecast to recognize the probable length of the appeal process. The estimated profit adjustment payments were left intact for all subsequent years. Since the Court has ruled and reaffirmed that R.J. Reynolds should continue to make all payments under the tobacco settlement agreement as if there had been no transfer of brands to ITG, the Conference assumes that the State will ultimately prevail. Although no dollars have been included in the forecast because the timing is unknown, the Conference further expects the State will be fully compensated for its losses.

The new forecast was adjusted based on the National Economic Estimating Conference results from July 12, 2018, and an updated Consumer Price Index series was used in the calculation beginning in FY 2018-19. Other adjustments to the forecast since the January 2018 Conference include an increase in the annual percent change in U.S. Cigarette Volume for FY 2018-19 through FY 2019-20.

The table below shows the new projected amounts of settlement payments to the State of Florida and the change from the previous estimate.
