## **Florida:** Long-Range Financial Outlook

September 3, 2009

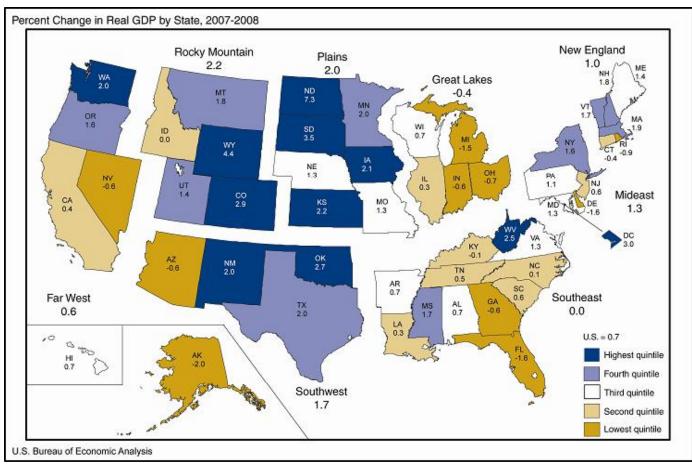

Presented by:

The Florida Legislature Office of Economic and Demographic Research 850.487.1402 http://edr.state.fl.us

## **Economy Lost Ground in 2008**

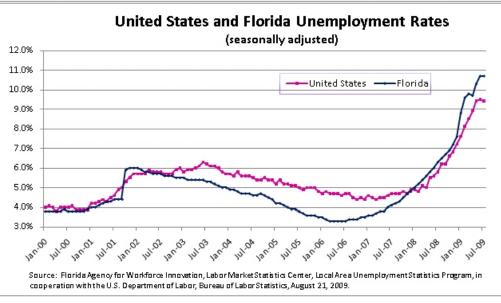

• Florida's growth is now declining. State Gross Domestic Product (GDP) ranked us 48<sup>th</sup> in the nation in real growth with a decline of (-1.6%) in 2008. In 2005, we were ranked 2nd in the nation.

#### **Employment Worsens**

#### Seasonally Adjusted Nonfarm Jobs Percent Change from Same Month Prior Year 6.0% -United States ——Florida 4.0% 2.0% 0.0% -2.0% -4.0% -6.0% Jan-01 Jan-02 Jan-00 Jan-03 Jan-04 Jan-05 Jan-06 Jan-07 Jan-08 Jan-09 Source: Florida Agency for Workforce Innovation, Labor Market Statistics Center, Current Employment Statistics Program, in cooperation with the U.S. Department of Labor, Bureau of Labor Statistics, August 21, 2009.

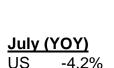

<u>July</u> US 9.4% FL 10.7% (987,000 people)

#### **Projected**

FL 11.0% Spring, 2010

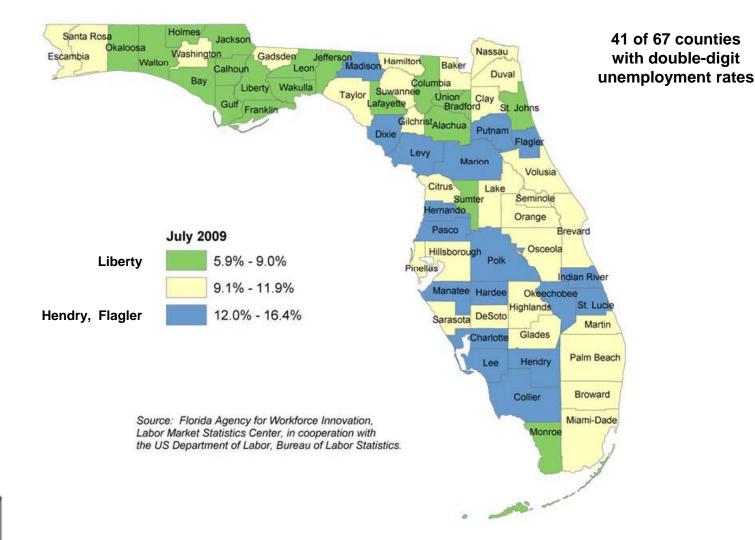

US -4.2% FL -5.2% (-401,100 jobs)

Last Comparable 1975

#### **Unemployment Rates**

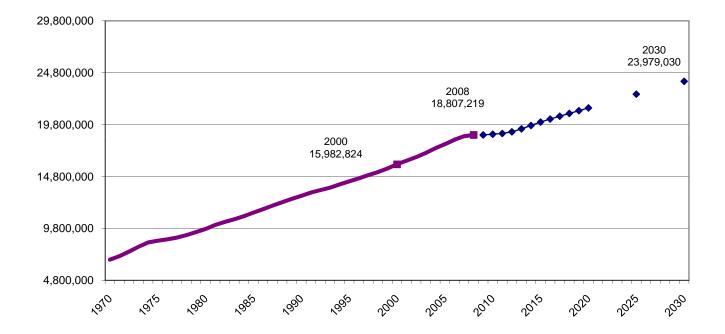

## **Population Growth Slowing**

- Population growth is the state's primary engine of economic growth, fueling both employment and income growth.
- Population growth hovered between 2.0% and 2.6% from the mid 1990's to 2006, then began to slow only reaching 0.7% in 2008. In the short term, population growth is forecast to remain relatively flat averaging 0.4% between 2008 and 2012. Population growth is expected to rebound in the future averaging 1.1% between 2025 and 2030.
- Florida is still on track to break the 20 million mark in 2015, becoming the third most populous state sometime before then – surpassing New York.

## Florida's April 1 Population

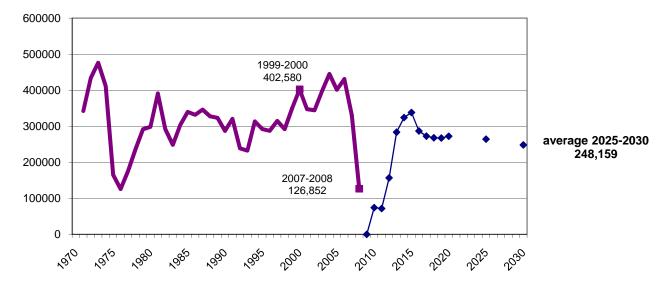

Florida's population:

- was 15,982,824 in 2000
- was 18,807,219 in 2008
- is forecast to grow to 23,979,030 by 2030

### **Florida's Population Growth**

Population increased by:

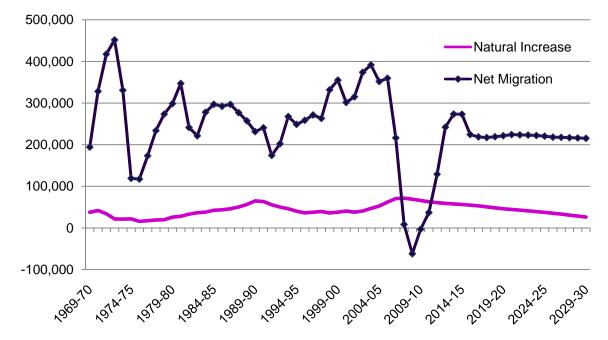

- 445,224 between 2003 and 2004
- 126,852 between 2007 and 2008

Population is forecast to increase on average by:

- -0- between 2008 and 2009 (likely revised to -58,000)
- 74,226 between 2009 and 2010
- 71,705 between 2010 and 2011
- 156,825 between 2011 and 2012
- 283,580 between 2012 and 2013

## **Population Components**

• Typically, most of Florida's population growth is from net migration. However, between 2007 and 2008, net migration represented only 10.5 percent of Florida's population growth.

• In 2030, net migration is forecast to represent 89.2 percent of Florida's population growth.

### **Recession – A Little Longer**

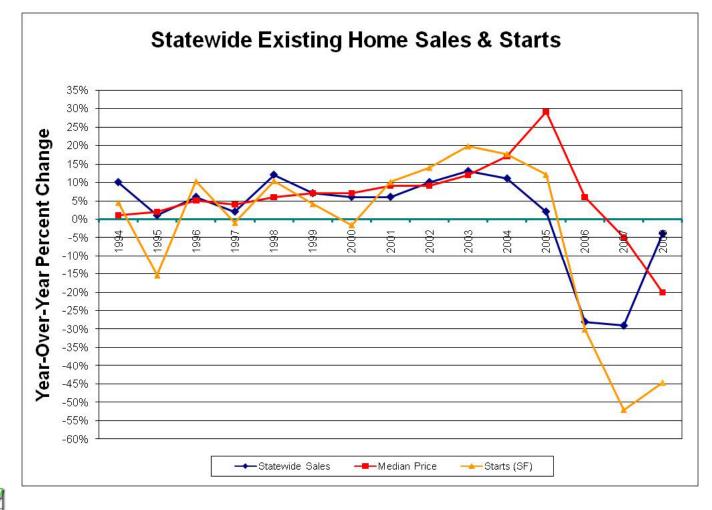

- United States economy has officially been in a recession since December 2007.
- The longest recession now on record and projected to last until the Spring of 2010.

Recession 2001	<u>Duration</u> 8 mos	<u>Recession</u> 1960-1961	<u>Duration</u> 10 mos
1990-1991	8 mos	1957-1958	8 mos
1981-1982	16 mos	1953-1954	10 mos
1980	6 mos	1948-1949	11 mos
1973-1975	16 mos	1945	8 mos
1969-1970	11 mos	1937-1938	13 mos

#### **Recessions since the Great Depression**

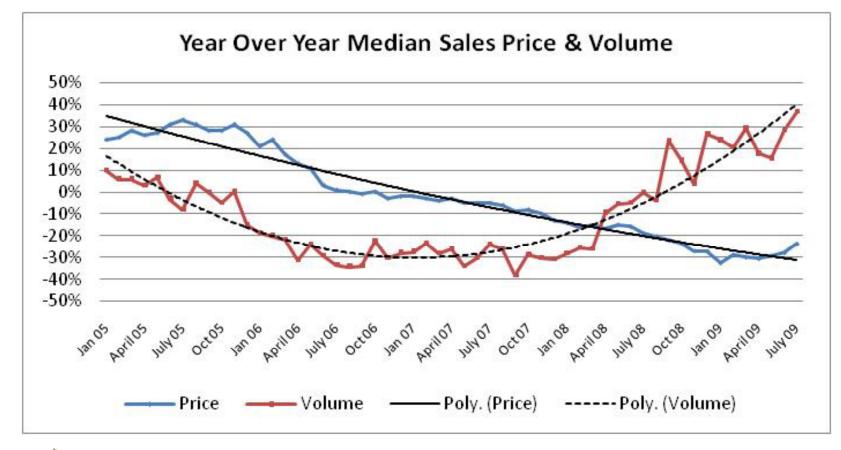

## Florida Housing is Improving

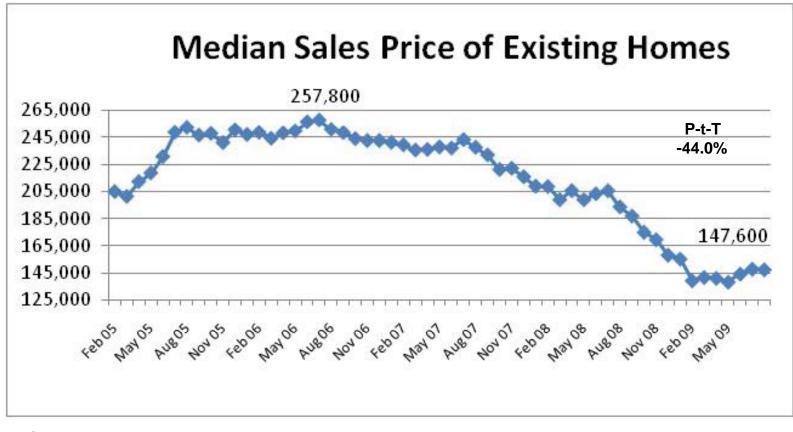

## **Existing Homes Sales Growing**

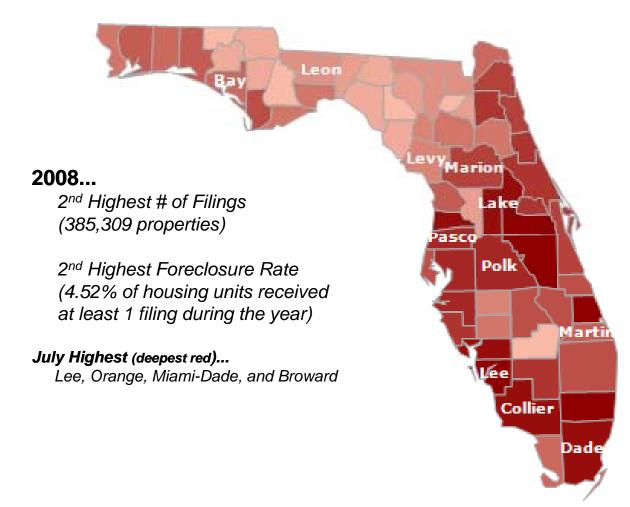

#### **Existing Home Prices Flattening**

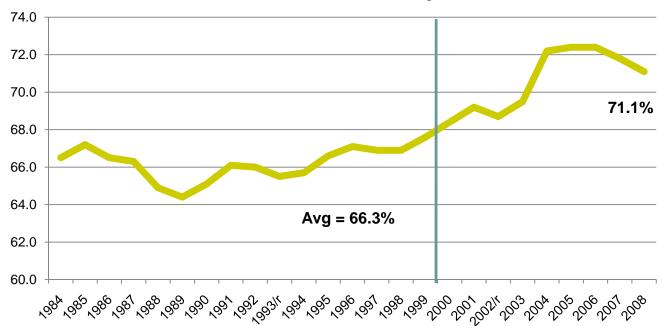

## **Foreclosure Filings Bottoming?**

## **Vulnerability**

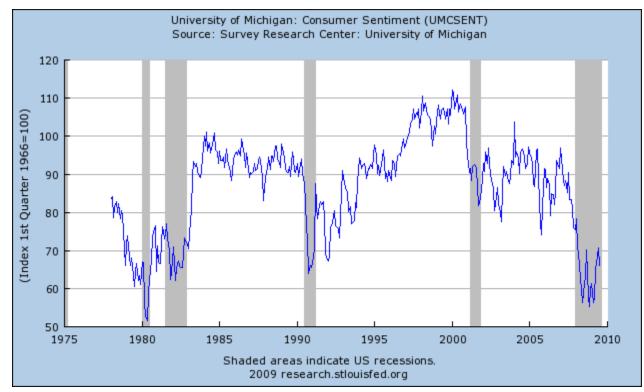

#### Florida Homeownership Rate

If the 2008 rate dropped immediately back to the long-run average, 359,990 homeowners would be affected and over \$74 billion of value.

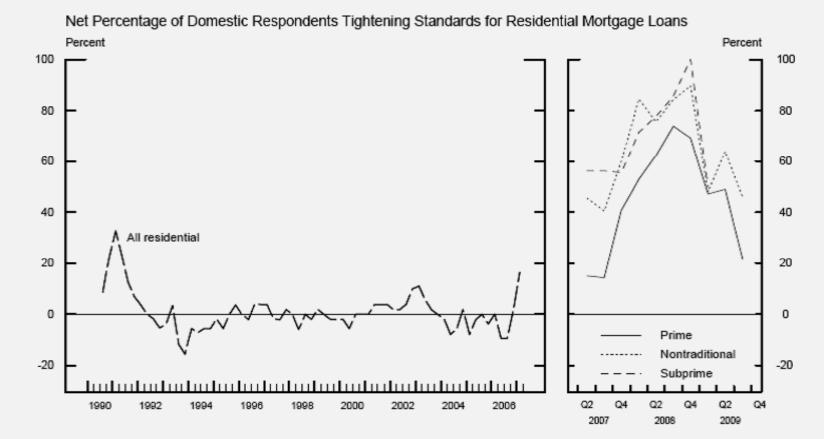

## **Sentiment is Stabilizing**

- Consumer sentiment can be a leading indicator of recession: nationally, it is improving from near the lowest levels ever obtained (66.0 in July versus 51.7 in May 1980), but still fluctuating.
  - Florida's consumer confidence (July: 67 versus record low 59 thirteen months ago) is following the national trend.

#### **Credit Market**

Note: For data starting in 2007:Q2, changes in standards for prime, nontraditional, and subprime mortgage loans are reported separately.

# **Revenue: Bringing It Together**

- Drags are more persistent relative to some past events, and strength will be slow to return.
- Credit Market, while much improved, remains sluggish and still difficult to access.
- Global recessionary conditions affect international migration, tourism and spending decisions, as well as exports.
- U.S. Consumers are responding to massive wealth destruction and tighter credit conditions.
- Recovery in the Florida housing market is not anticipated to begin until the latter half of Fiscal Year 2010-11.

## The Economy Will Rebound

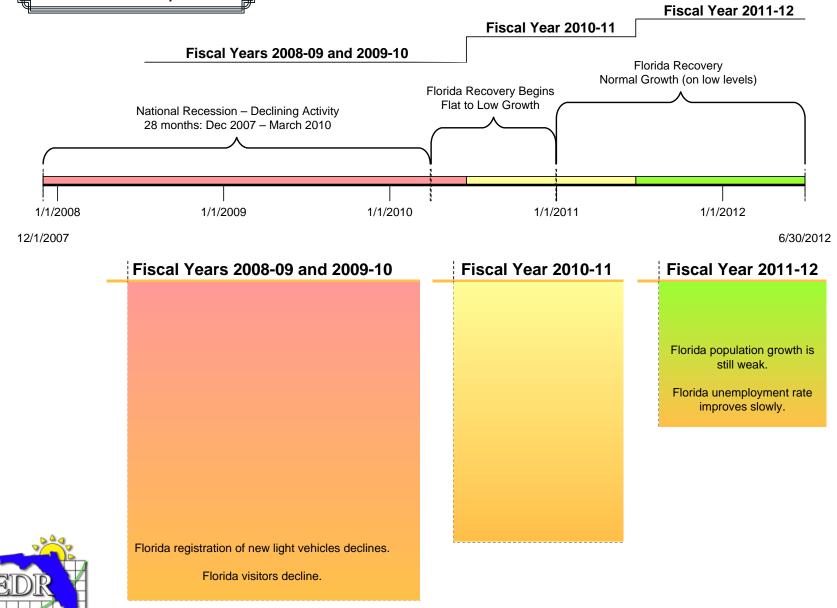

By Summer 2010, growth rates will begin a slow return to more typical levels. In the meanwhile...

- The national economic contraction will run its course and, more importantly, the financial markets will recover stability.
- The subsequent turnaround in Florida housing will be led by:
  - Falling home prices that begin to attract buyers and clear the inventory (FL below the national average in June: \$181,600 nationally vs. \$148,000 in Florida...18.5% below)
  - Long-run sustainable demand caused by continued population growth and household formation.
  - Florida's unique demographics and the aging of the babyboom generation.

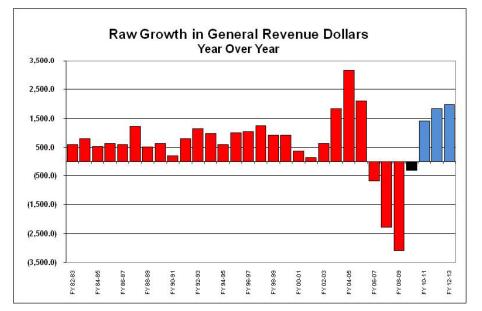

#### Florida Recovery Timeline

Summer 2009 Projections

#### **Lower General Revenue Estimate**

	Original	Revised for	New	Difference	Incremental	
Fiscal Year	Forecast	Session	Forecast	(New - Rev)	Growth	Growth
2005-06	27074.8					8.4%
2006-07	26404.1					-2.5%
2007-08	24112.1					-8.7%
2008-09	20944.6	20944.6	21025.6	81.0	-3086.5	-12.8%
2009-10	19998.4	20840.3	20693.2	-147.1	-332.4	-1.6%
2010-11	21091.2	22141.2	22097.0	-44.2	1403.8	6.8%
2011-12	23007.9	24038.2	23914.8	-123.4	1817.8	8.2%
2012-13	24950.6	25991.2	25879.4	-111.8	1964.6	8.2%

#### **Other Revenues**

- The Educational Enhancement and Tobacco Settlement Trust Funds will have little or no long-term growth. Each fund begins the last year of the Outlook period with fewer total dollars for expenditure than were available in Fiscal Year 2009-10.
- Senate Bill 788 authorizes the ratification of an Indian Gaming Compact by the Florida Legislature after execution by the Governor. Revenue from the ratification that would be available for appropriation from the Educational Enhancement Trust Fund (EETF) is not included in the EETF projection of funds available.
- The Principal State School Trust Fund has a projected deficit in the current year that must be resolved prior to the end of the fiscal year (-\$38.1 million).

## **Debt Financing**

Benchmark Ratio Estimated August 2009										
	Fiscal Year	<u>2009</u>	<u>2010</u>	<u>2011</u>	<u>2012</u>	<u>2013</u>				
August 2009 Debt Service as %	of Revenue	7.46%	8.48%	8.32%	8.08%	7.83%				

### **Current Year Deficits & Balance**

Unallocated General Revenue (Current Outlook)	+\$667.1 million
<ul> <li>Medicaid</li> <li>FY 2008-09 &amp; 2009-10</li> </ul>	-\$224.8 million
<ul> <li>Principal State School Trust Fund</li> <li>FY 2009-10</li> </ul>	-\$ 38.1 million
<ul> <li>Risk Management Trust Fund</li> <li>FY 2009-10</li> </ul>	-\$ 5.3 million
<ul> <li>Voluntary Pre-Kindergarten</li> <li>FY 2009-10</li> </ul>	<u>-\$ 17.5 million</u>
	+\$381.4 million

#### **Presentation Framework**

- The General Revenue Fund is solvent for Fiscal Year 2009-10, but has projected shortfalls in each of the three planning years despite the significant revenue growth projected for those years.
- The Long-Range Financial Outlook assumes that nonrecurring solutions are used to address the budget gaps, meaning that each year stands alone, and:
  - that the beginning balances for the subsequent years are zero;
  - there are no fiscal strategies deployed that cause permanent changes to revenues or expenditures; and,
  - there is no required repayment of funds in future years.
