

Revenue Estimating Conference for Tobacco Settlement Payments
July 23, 2021
Executive Summary

The Revenue Estimating Conference met on July 23, 2021, to adopt a new forecast of Tobacco Settlement payments for the 2021-22 through 2032-33 fiscal years.

Tobacco settlement payments accrue to the state from a formal settlement agreement entered on August 25, 1997, in response to a lawsuit between the State of Florida and several major tobacco companies. An annual payment is due by December 31 of each year, and a profit adjustment payment is made following the end of each participating company's fiscal year. Both payments continue in perpetuity.

The last payments expected in FY 2020-21 (based on Florida Profit Adjustments and any revisions to the liability for December) were received in April. After the final adjustments were made, the payments from the original settling manufacturers were a combined -\$0.1 less than forecast.

For estimated total liability, the new forecast was adjusted based on the National Economic Estimating Conference results from July 12, 2021. This allowed an updated Consumer Price Index series to be used in the calculation beginning in FY 2021-22. Other adjustments to the forecast since the March 2021 Conference include the annual percent change in U.S. Cigarette Volume beginning in FY 2021-22. The growth rate was revised to -2.0% in the first year of the forecast instead of the -2.53% growth rate in the prior forecast. The Conference retained the out year growth rates adopted at the previous Conference.

The growth rate forecast for Actual Net Operating Profits was revised to include data from the most recent twelve years. The forecast changed from 4.8% at the previous Conference to 8.0% in the first three years of the new forecast. Thereafter, the forecasted growth rates gradually decrease by 0.5% each year until FY 2030-31 when the 4.8% rate is restored.

Overall, the forecast has increased. The table below shows the new estimated amounts of settlement payments to the State of Florida and the change from the previous estimate.
