Salaries of Elected County Constitutional Officers and School District Officials for Fiscal Year 2011-12

Summary:

The practice of determining the compensation of Florida's county constitutional officers by state law was sanctioned by the Constitution of 1885 and has been maintained since the 1968 constitutional revision.¹ However, it was not until 1973 that the Legislature authorized the salary compensation formula that was the precursor to its present form.² Prior to that legislation, the authorization of compensation changes for county officers required frequent legislative action. A summary of these historical constitutional provisions and general law amendments can be found in this report's appendix.

In expressing its intent, the Legislature determined that a uniform salary law was needed to replace the previous local law method of paying elected county officials, which was haphazard, preferential, inequitable, and probably unconstitutional.³ In addition, the Legislature intended to provide for uniform compensation of county officers having substantially equal duties and responsibilities and basing these uniform salary schedules on countywide population. Furthermore, in acknowledging the Legislature's stated intent for uniformity, Florida's Attorney General opined in 2008 that a sheriff could not voluntarily reduce his or her salary below that established by law.⁴ However, in 2009, the Legislature has granted district school board members and elected school superintendents the authority to reduce their salaries on a voluntary basis.⁵ Furthermore, in 2011, the Legislature authorized each member of a board of county commissioners, clerk of circuit court, county comptroller, sheriff, supervisor of elections, property appraiser, and tax collector to voluntarily reduce his or her salary.⁶

The salary provisions apply to all designated officers in all counties of the state, except those officials whose salaries are not subject to being set by the Legislature due to the provisions of a county home rule charter, as well as those officials of counties that have a chartered consolidated form of government as provided in Chapter 67-1320, Laws of Florida (i.e., Duval County).⁷ The adoption of a charter provides the county's electors with a mechanism to fundamentally alter the form of county government and the status of constitutional officers.⁸

The current salary formula methodology specifies that the latest official population census counts or intercensal estimates for the years between decennial censuses serve as a major component of the salary computation. In addition to the population figures, the salary formula contains five other components. The *base salary* and *group rate* components for the separate officers are specified in various sections of the

Florida Statutes.⁹ The *initial factor* component is currently set in law as a constant numerical value.¹⁰ The Florida Department of Management Services (DMS) annually certifies the remaining two components, the *annual factor* and *cumulative annual factor*, used in the salary formula calculations.¹¹ Traditionally, this annual certification has occurred in late summer, typically by the month of September.¹²

Prior to 1984, the Florida Department of Community Affairs calculated salaries for county constitutional officers; however, that authority was deleted from law during the 1984 legislative session.¹³ Beginning in 1985, the Advisory Council on Intergovernmental Relations, the predecessor to the former Legislative Committee on Intergovernmental Relations (LCIR), agreed to annually calculate the salaries of county constitutional officers as a service to governmental units. In 2010, the LCIR was not funded by legislative appropriation, and the Committee ceased operations on June 30, 2010. Since 2010, the Legislature's Office of Economic and Demographic Research (EDR) has made the annual calculations. Since the EDR is not required by law to perform these calculations, county government and school district officials are encouraged to independently verify the salaries of their respective elected officials.

2011 General Law Amendments Affecting Elected Officers' Compensation:

Chapter 2011-158, Laws of Florida, (HB 19) provided that notwithstanding the provisions of Chapter 145, F.S., each member of a board of county commissioners, clerk of circuit court, county comptroller, sheriff, supervisor of elections, property appraiser, and tax collector was authorized to voluntarily reduce his or her salary rate. This change became effective on July 1, 2011.

Definition of Terms Relevant to the Current Statutory Formula:

Population means the latest annual determination of population of local governments produced by EDR and provided to the Governor's Office in accordance with s. 186.901, F.S.¹⁴ For the years between decennial censuses, the University of Florida's Bureau of Economic and Business Research (BEBR) generates annual population estimates for local governments, in accordance with a contract administered by EDR.

Salary means the total annual compensation, payable under the schedules set forth in Chapter 145, Florida Statutes, to be paid to an officer as personal income.¹⁵

Annual Factor means 1 plus the lesser of either: 1) the average percentage increase in the salaries of state career service employees for the current fiscal year as determined by the DMS or as provided in the General Appropriations Act; or 2) 7 percent.¹⁶

Cumulative Annual Factor means the product of all annual factors certified under this act prior to the fiscal year for which salaries are being calculated.¹⁷

16. Section 145.19(1)(a), F.S.

17. Section 145.19(1)(b), F.S.

Initial Factor means a factor of 1.292, which is the product, rounded to the nearest thousandth, of an earlier cost-of-living increase factor authorized by Chapter 73-173, Laws of Florida, and intended by the Legislature to be preserved in adjustments to salaries made prior to the enactment of Chapter 76-80, Laws of Florida, multiplied by the annual increase factor authorized by Chapter 79-327, Laws of Florida.¹⁸

Salary Computation Methodology:

STEP 1 of the salary computation involves the determination of the relevant population group number for the elected officer based on the countywide population. **Table 1** lists the official 2010 county census counts used to compute the 2011-12 salaries.

Two sets of countywide population ranges are used to determine the salaries of the elected officers. One set applies to the clerk of circuit court, county comptroller (if applicable), tax collector, property appraiser, supervisor of elections, sheriff, and school superintendent. The second set applies only to county commissioners and school board members. Each population range has an assigned population group number.

STEP 2 of the salary computation involves the determination of the relevant base salary and group rate that corresponds to the population group number determined in the first step. **Table 2** displays the applicable sets of population ranges corresponding to each population group number, base salaries, and group rates for each category of elected officer.

STEP 3 involves computing the salaries of elected county officers using the following formula.

$$\text{Salary} = [\text{Base Salary} + (\text{Population Above Group Minimum} \times \text{Group Rate})] \times \text{Initial Factor} \times \text{Certified Annual Factor} \times \text{Certified Cumulative Annual Factor}$$

Sample Computation of Salary:

Officer: Alachua County Tax Collector

2010 Population Census Count:	247,336
Group Number (IV) Minimum:	200,000
Corresponding Base Salary (i.e., Group IV):	\$30,175
Corresponding Group Rate (i.e., Group IV):	0.01575
Initial Factor:	1.292
Certified Annual Factor:	1.0000
Certified Cumulative Annual Factor:	3.1681

$$\text{Salary} = [\$30,175 + [(247,336 - 200,000) \times 0.01575]] \times 1.292 \times 1.0000 \times 3.1681 = \$126,564$$

Salaries of Elected County Constitutional Officers:

Table 3 displays the salaries for the county constitutional officers calculated pursuant to the statutory formula. As previously mentioned, these salaries apply to all designated officers in all counties of the state, except those officials whose salaries are not subject to being set by the Legislature due to the provisions of a county home rule charter, as well as those officials of counties that have a chartered consolidated form of government as provided in Chapter 67-1320, Laws of Florida (i.e., Duval County). *With the enactment of*

18. Section 145.19(1)(c), F.S.

Chapter 2011-158, Laws of Florida, each elected county constitutional officer is now authorized to voluntarily reduce his or her salary rate. The salary figures listed in Table 3 do not reflect any such voluntary reductions. Additionally, these salary figures do not include any special qualification salary (discussed in a subsequent section of this report), which may be awarded to eligible officers.

Salaries of Elected School Board Members and School Superintendents:

Pursuant to Chapter 2010-154, Laws of Florida, the salary of each school board member for the 2010-11 fiscal year only was the amount calculated and published in last year's report, or the district's then beginning salary for teachers who held baccalaureate degrees, whichever was less. With the expiration of that provision, school board members' salaries for the 2011-12 fiscal year were determined solely by statutory formula. School board members also have the authority to reduce their salary rate on a voluntary basis.¹⁹

Formula-based salary computations are made for school superintendents in every district and are included in **Table 3** even though the statutory provisions apply only to elected superintendents. The salary figures published in the table do not include any special qualification salary, performance salary incentive, or district school board-approved salary (each discussed in a subsequent section of this report), which may be awarded to eligible elected school superintendents. Elected school superintendents may also reduce their salary rate on a voluntary basis.²⁰ *The salary figures for elected school board members and school superintendents listed in Table 3 do not reflect any such voluntary reductions.*

Effective Date of Salary Changes:

Current law requires that county officers' salaries be adjusted each fiscal year, but fails to specify whether the state or local government fiscal year shall be applied.²¹ Florida's county governments operate on the October 1st to September 30th local fiscal year, while Florida's school districts operate on the July 1st to June 30th state fiscal year. In an attempt to clarify this uncertainty, Florida's Attorney General opined that salary increases are effective October 1st for the elected county officers and July 1st for the elected school district officials.²²

Additional Compensation:

Select county constitutional officers are eligible to receive a special qualification salary of up to \$2,000 added to their formula-based salary; however, the officer must first successfully complete the required certification program. Any officer becoming certified during a calendar year shall receive in that year a pro rata share of the special qualification salary based on the remaining period of the year. Any special qualification salary is added after the calculation of the formula-based salary.²³

Certification programs are offered to the clerks of circuit court, sheriffs, supervisors of elections, property appraisers, tax collectors, and elected school superintendents, and the officer is required to complete a course of continuing education to remain certified.²⁴ The following state agencies prescribe the courses of continuing education: the Supreme Court for clerks of circuit court; the Department of Law Enforcement for sheriffs; the Department of State's Division of Elections for supervisors of elections; the Department of Revenue for property appraisers and tax collectors; and the Department of Education for elected school superintendents.

In addition to the certification program for elected school superintendents, the Department of Education also provides a leadership development and performance compensation program.²⁵ This leadership development and performance compensation program consists of two phases: a content, knowledge, and skills phase; and a competency acquisition phase. Upon successful completion of both phases and demonstrated successful performance, the school superintendent shall be issued a Chief Executive Officer Leadership Development Certificate and shall be given an annual performance salary incentive of not less than \$3,000 nor more than \$7,500 based upon his or her performance evaluation. For elected school superintendents, current law also provides that a district school board may approve, by majority vote, a salary in excess of the formula-based amount.²⁶

Payment of Group Insurance Premiums or Charges:

The payment of premiums or charges for group insurance for those county officers whose compensation is fixed by Chapter 145, Florida Statutes, is authorized.²⁷ All or any portion of the payment of the costs of life, health, accident, hospitalization, or annuity insurance for county officers, as authorized in s. 112.08, F.S., shall not be deemed to be compensation within the purview of Chapter 145.²⁸

Role of the EDR:

As previously mentioned, the EDR has continued the annual calculations of elected county and school district officials' salaries as a service to interested parties. No legislative entity is under statutory obligation to perform these annual calculations; therefore, county government and school district officials are encouraged to independently compute the salaries of their own elected constitutional officers in order to verify the salary figures published in this report.

Beyond making the formula-based salary calculations and publishing this annual report, the EDR does not collect any of the following information: 1) salary figures for those officers whose salaries are not set pursuant to the statutory formula; 2) salary figures for those officers choosing to voluntarily reduce their salary; 3) a listing of county constitutional officers and elected school superintendents receiving any special qualification salary and the amounts of those supplemental awards; 4) a listing of elected school superintendents receiving any performance salary incentive or district school board-approved salary and the amounts of those supplemental awards; and 5) the amounts of any group insurance premiums or charges paid on behalf of those county officers whose compensation is fixed by law. Persons interested in obtaining such figures should contact the county government or school district directly.

30. Section 8 of Chapter 2011-69, L.O.F.

The annual salaries of members of the Florida Senate and House of Representatives are set as a fixed dollar amount, but current law includes a provision for annual adjustment on July 1st based on the average percentage increase in the salaries of state career service employees for the fiscal year just concluded.³¹ However, notwithstanding the provisions of s. 11.13(1), F.S., the authorized salaries for members of the Legislature for the 2011-12 fiscal year shall be set at the same level in effect on July 1, 2010.³² Consequently, for the 2011-12 fiscal year, the salaries for the Senate President and House Speaker are \$41,181 each, and the salaries for all other Senate and House members are \$29,697 each.

Notes:

- 1) Salary figures have been calculated by the Florida Legislature's Office of Economic and Demographic Research (EDR) pursuant to the statutory formula in Chapter 145, Florida Statutes. Although not required by law, the EDR calculates salaries of elected county constitutional officers and school district officials as a service to county governments and school districts. County and school district officials are encouraged to independently compute and verify these salary figures.
- 2) The calculated salary figures for all officers reflect the use of 2010 countywide population census counts published by the U.S. Bureau of the Census (i.e., 2010 Census PL 94-171 redistricting summary data file released March 17, 2011).
- 3) These salary figures may not be applicable to those elected county officers of a chartered consolidated government or those elected officers in counties having a home rule charter, which specifies another method of salary compensation. As indicated in this table, Florida currently has 20 charter counties.
- 4) Salary figures are included for each school district's superintendent even though the salaries determined by statutory formula are applicable only to elected school superintendents. As indicated in this table, Florida currently has 43 elected school superintendents.
- 5) These salary figures do not include any special qualification salary available to eligible clerks of circuit court, property appraisers, sheriffs, supervisors of elections, and tax collectors who have completed the required certification program specified in the relevant sections of Chapter 145, Florida Statutes. Additionally, the salary figures for elected school superintendents do not include any special qualification salary and performance salary incentive available to eligible elected school superintendents who have completed the required certification programs specified in Section 1001.47, Florida Statutes.
- 6) As the result of recent statutory changes (i.e., Chapters 2009-3, 2009-59, and 2011-158, Laws of Florida), each elected county constitutional officer and school district official is now authorized to voluntarily reduce his or her salary rate. However, the salary figures listed in this table do not reflect any such voluntary reductions.
- 7) Pursuant to law, the Florida Department of Management Services must annually certify two components of the salary formula calculation: the annual factor and cumulative annual factor. For the 2011-12 fiscal year, the certified annual factor is 1.0000 and the certified cumulative annual factor is 3.1681.

Consequently, the amount of compensation set in law for each type of county officer varied from county to county, except for Dade County where compensation was determined locally based on home rule powers. The intent of the legislation was not to repeal, affect, or modify any local or special law, or general law of local application enacted prior to or during 1961 as to the compensation of county officers, travel expenses of county officers, or payment of extra compensation of the chair of the board of county commission or board of public instruction. The legislation added provisions that unless the state paid the clerk's or county comptroller's salary, the county would pay it. Additionally, the county would compensate the clerk of circuit court for any additional county court-related duties that the clerk would be required to perform, unless the state paid such compensation.

Chapter 73-172, L.O.F., modified the procedure regarding disposition of excess fees collected by a tax collector or assessor. The calculation method provided that the officer would receive as salary the base salary indicated in the appropriate section of the chapter, based on the county's population with compensation made for population increments over the minimum for each population group, which would be determined by multiplying the population in excess of the group minimum times the group rate. In addition, the legislation provided for a special qualification salary of \$2,000 per year to qualified tax assessors. Also, the legislation provided for an additional adjustment to all officers' salaries based on the U.S. Department of Labor's Consumer Price Index, which would be multiplied by the applicable adjusted salary rate.
