

EXECUTIVE SUMMARY

Criminal Justice Estimating Conference

December 23, 2025

The Criminal Justice Estimating Conference convened December 23, 2025, to revise the forecast of prison admissions and population. During the five months monitored since the July 2025 Conference, admissions totaled 11,367 at the end of November 2025 which was 260 below the estimate or a loss of -2.2 percent from the forecasted level. With a reported prison population that was just 228 lower than expected in July, the error rate was only -0.3 percent. While both metrics ran slightly below their estimated levels, the error rates are well within the range that various conferences generally attribute to noise.

Given the accuracy of the overall results and generally similar underlying trends, the Conference decided to preserve the commitment forecast for FY 2025-26 through FY 2030-31, with only minor changes to conditional and control release technical violators and small adjustments to new commitments for the end of December 2025. As a result, the revisions to final release dates and the new commitments release matrix drove most of the change to the prison population forecast adopted in July 2025. The annual percentage changes to the prison population are upward due to the lower near-term releases, but close to those assumed by the prior conference.

Year	Admissions	Releases	End of year pop	End of year over (under) July 2025 CJEC	End of year percent change
FY 25-26	28,095	25,893	91,289	189	2.5%
FY 26-27	28,521	26,982	92,828	243	1.7%
FY 27-28	28,612	27,224	94,216	678	1.5%
FY 28-29	28,664	27,744	95,136	541	1.0%
FY 29-30	28,256	27,841	95,551	585	0.4%
FY 30-31	28,276	28,102	95,725	415	0.2%

CRIMINAL JUSTICE TRENDS

➤ Accuracy of July 2025 forecast

- **Admissions** since the July conference totaled 11,367—260 less than projected for an error of -2.2 percent. (Page 1)
- The **end-of-month population** on November 30th was 89,682. This was -228 under the projected 89,910 (-0.3% error). (Page 1)
- Over 95.4 percent of July through November admissions were new commitments, and the percentage error was the same for this group as it was for all admissions. There were 10,847 new commitments, -239 less than projected (-2.2% error). The number of conditional and control release violators returned to prison with technical violations was -21 less than projected in July (-3.9% error). (Page 2)

➤ Crime

- The published Uniform Crime Reports were discontinued by the Florida Department of Law Enforcement (FDLE) in the summer of 2022. The last available data related to the 2021 calendar year (Crime in Florida, 2021 Florida Uniform Crime Report). The expectation was that FDLE would resume production of these reports after transitioning from the Summary Reporting System to the Florida Incident-Based Reporting System. In July 2025, FDLE indicated that the new reports would be available before the Fall/Winter Criminal Justice Estimating Conference. To date, the reports are still unavailable.

➤ Filings and Guilty Dispositions

- After three years of increases, the number of **felony filings** decreased by -1.2% in 2024. (Pages 9 and 15)
- **Violent** offense filings increased by 0.4 percent in 2024 and **nonviolent** offense filings decreased by -1.2 percent. During the same period, **drug** filings decreased by -2.2 percent. (Pages 10 and 11)
- The share of **violent** filings increased to 23.9 percent in 2024. The share of filings that are **nonviolent** stayed flat at 44.7 percent in 2024, while the share of **drug** filings decreased from 31.7 percent to 31.4 percent. (Pages 10 and 11)
- The number of **guilty dispositions** increased for three years before being relatively flat in 2024. (Pages 12 and 15)
- **Violent** offense guilty dispositions decreased by -2.9 percent and **nonviolent** offense guilty dispositions increased by 0.3 percent in 2024 over 2023. During the same period, drug guilty dispositions increased by 1.6 percent. (Pages 13 and 14)
- The share of guilty dispositions for **violent** offenses decreased from 21.4 to 20.8 percent between 2023 and 2024. The share for **nonviolent** offenses and the share for **drug** offenses increased. (Pages 13 and 14)
- The most current available data indicate that filings are increasing and guilty dispositions are decreasing. Filings for January through September 2025 obtained from the November 2025 data were 2.9 percent

above the January through September 2024 filings obtained in February 2025. January through September 2025 guilty dispositions were -1.0 percent lower than for the same period in 2024. (Page 15)

- The percent of **guilty dispositions which are imprisoned** as new commitments has trended upward from less than 16 percent in the late nineties to 23.3 percent in 2009. The percentage fell for three years but then increased through 2014. Following four years of declines, the percentage increased slightly in 2019, then decreased to 14.7 percent in 2020. The percentage increased to 19.1 percent in 2021, increased to 22.4 percent in 2022, then decreased to 21.4% in 2023 and remained at 21.4% in 2024. (Page 16)

➤ **Prison Admissions**

- There were 27,802 **admissions to prison** in FY 24-25, remaining flat when compared to the 27,809 admissions in FY 23-24. This is the second fiscal year of admissions remaining relatively flat after two years of increasing admissions. (Page 23)
- **New commitments**, which are nearly 96.0 percent of all admissions, totaled 26,606 in FY 24-25. This represented a -0.3 percent decrease from the prior fiscal year, remaining relatively flat for the second straight year after new commitments increased for two fiscal years. (Page 24)
- In looking at new commitments by calendar year, new commitments remained flat between 2023 and 2024. (Page 25)
- **Conditional and control release violators without new sentences** comprise the remaining 4.0 percent of total admissions. These admissions increased by 5.7 percent in FY 24-25 after remaining relatively flat in the prior fiscal year. (Page 26)
- The average **sentence length** of new commitments remained flat at 70.1 months between FY 23-24 and FY 24-25. (Pages 27 and 28)
- In November 2025 the average **sentence length** of new commitments was 69.7 months (5.8 years). In November 2024 the average sentence length was 71.7 months (6.0 years). (Pages 28 and 29)
- While large numbers of new commitments are sentenced to prison with short sentences, there are often shifts in the **sentence length distribution**. Total new commitments remained relatively flat, decreasing by -71 (-0.3%) between FY 23-24 and FY 24-25, with the largest decreases being in sentences between 16 and 21 months and sentences between 58 and 78 months. In the first five months of FY 25-26, new commitments continued to remain relatively flat, decreasing by -33 (-0.3%), with the largest decrease being in sentences between 16 and 21 months. (Page 30)
- The number of **year-and-a-day new commitments** increased by 4.8 percent in FY 24-25 following a decrease in year-and-a-day new commitments in the prior fiscal year. (Page 31)
- The **percentage of year-and-a-day sentences** increased after decreasing in the prior fiscal year. In FY 24-25, 7.6 percent of new commitments had year-and-a-day sentences, up from 7.2 percent in FY 23-24. (Page 32)
- While **year-and-a-day sentences** increased statewide in FY 24-25, the first five months of FY 25-26 are showing a decrease in these sentences, with -7.6 percent less compared to the same time period in FY 24-25. The largest level decrease was in Volusia County where these sentences decreased by -34.5 percent. (Page 33)
- There was a detectable increase in **year-and-a-month sentences** in **Hillsborough County** beginning November 2007. These increases were in conjunction with a large decline in **year-and-a-day**

sentences. Hillsborough's percentage of total new commitments that are either year-and-a-day or year-and-a-month in length declined after October 2006, remained stable for a couple of years and trended upward before stabilizing once again. Data for the first five months of FY 25-26 suggest that year-and-a-day sentences represent the largest share of these short sentences and are still remaining relatively stable. Data also suggest that Pinellas County started using the year-and-a-month sentence as an alternative to year-and-a-day sentences beginning in 2010. More recent data for Pinellas County indicate a stabilization in both sentencing types. (Page 34)

- **Growth in new commitments** is not uniform across the state. Comparing the first five months of FY 24-25 and FY 25-26, 26 counties experienced negative growth in the number of new commitments and 38 counties showed positive growth. (Pages 35 and 36)
- Duval County had the largest **number of new commitments** in the first five months of FY 25-26 (660, 6.1% of total). New commitments from Polk accounted for 5.9 percent of the state total, up from 5.0% in the same time period in FY 24-25. Hillsborough's new commitments accounted for 5.5 percent of the total (up from 4.8%). (Page 35)
- In the first five months of FY 25-26, Duval County led the state in the number of **decreases in new commitments**, decreasing by -236 (-26.3%) when compared to the same time period in FY 24-25. Marion decreased by -125 new commitments (-26.1%). While these contributed to the decrease in new commitments between the same time periods in FY 24-25 and FY 25-26, Polk County increased by 102 (18.8%). (Page 36)
- Florida's three **largest counties**, Miami-Dade, Broward, and Hillsborough, accounted for 27.3 percent of the state population in 2025, but only 14.0 percent of the state's new commitments to prison in FY 24-25 and 26.5 percent of the year-and-a-day sentences. On the other hand, Bay County accounts for 0.9 percent of the state's total population, but accounts for 3.0 percent of new commitments. (Pages 37 and 38)
- Similarly, Hillsborough County accounts for 6.7 percent of the state's total population, but accounts for 8.8 percent of the year-and-a-day sentences, and though Volusia only represents 2.6 percent of the state population, it accounts for 13.5 percent of year-and-a-day sentences. Perhaps even more remarkable, of the 15 counties that have double-digit shares of their new commitments with year-and-a-day sentences, more than half of them have population shares of less than three-quarters of one percent. (Pages 37 and 38)
- The -0.3 percent decrease in new commitments in the first five months of FY 25-26 was not evenly distributed across **offense groups**, with percent change ranging from -6.5% ("**Drugs**") to 19.4% ("**Sexual/Lewd Behavior**"). A majority of offense groups also saw increases in average sentence length, though these were slight and offset by larger decreases, such as "**Sexual/Lewd Behavior**" decreasing by over two years. Ultimately, this amounted to the first five months of FY 24-25 having an average sentence length of 70.9 months and the first five months of FY 25-26 having an average sentence length of 71.8 months. (Page 39)
- Decreases in new commitments in the "**Drugs**" category were also distributed across many offenses, with the largest decreases being in "**S/M/D Other Sch I and II**," which decreased by -94 (-52.2%), and "**Trafficking offenses**" (-64, -6.9%). (Page 40)
- Increases in new commitments in the "**Sexual/Lewd Behavior**" category were distributed across several offenses, with the largest increase being in "**Travel to meet minor, lewd/lascivious**," which increased by 56 (116.7%) for the first five months between FY 24-25 and FY 25-26. "**Lewd/lascivious battery of a minor**" also increased by 24 (35.8%). (Page 41)
- The decrease in **year-and-a-day sentences** for the first five months between FY 24-25 and FY 25-26 was not evenly distributed across **offense groups**. The largest decrease was "**Drugs**," with -36 fewer commitments (-13.8%). (Page 42)

- New commitments with **year-and-a-day sentences** have a wide variety of offenses. In the first five months of FY 25-26, “**Possess methamphetamine**” and “**Possess controlled substance (other)**” were the most common primary offenses. These two offenses accounted for 16.6 percent of the total year-and-a-day new commitments (up from 14.3% in the first five months of FY 24-25). (Page 43)
- The **percentage of new commitments sentenced for third degree felonies** increased from 42.7 percent in FY 23-24 to 42.9 percent in FY 24-25. (Page 44)
- The number of offenders sentenced to prison under **10-20-Life** increased in FY 24-25 with 1,652 offenders sentenced under these provisions receiving mandatory prison terms. Of these offenders, 17.9 percent received a sentence of at least 25 years in length, up from 15.0 percent in FY 23-24. (Pages 45 and 46)
- The total affected prison population under 10-20-Life has increased for the last four fiscal years after decreasing over the prior two years. On June 30, 2025, there were 13,347 offenders who had received a mandatory prison term under this statute in Florida’s prisons. This represented 15.0 percent of Florida’s prison population on that date. (Pages 45 and 46)

➤ COUNTY JAILS

- **Average daily population** in county jails declined with the end of zero tolerance policies. The adjusted June 2025 average daily population (ADP) of 54,564 was -2.7% percent lower than the adjusted June 30, 2024 ADP of 56,076. However, at the peak of zero tolerance, the ADP exceeded 66,000 (July 2007). (Page 47)
- The **adjusted average daily population** has been below 60,000 since December 2009. (Page 48)
- In FY 18-19, an average of 17.6 percent of the **offenders in county jail sentenced for a felony**. In FY 19-20, the percentage decreased to an average of 15.7 percent of the **offenders in county jail sentenced for a felony**. In FY 20-21, the percentage continued to decrease to an average of 12.4 percent of the **offenders in county jail sentenced for a felony**. In FY 21-22, the percentage increased to an average of 13.7 percent of the **offenders in county jail sentenced for a felony**. In FY 22-23, the percentage decreased to an average of 12.2 percent of the **offenders in county jail sentenced for a felony**. In FY 23-24, the percentage then increased slightly to an average of 12.4 percent of the **offenders in county jail sentenced for a felony** and decreased again in FY 24-25 to 12.1 percent. In the first five months of FY 25-26, the percentage decreased again to 11.6 percent. (Page 49)

➤ OTHER TRENDS

- After increasing from 112,529 on June 30, 2006 to 119,216 in June 2008, the number of offenders on active supervision fell over the next three years to 113,622 in June 2011. The number on active supervision grew in 2012, but then declined for another nine years and was 84,526 on June 30, 2021. It grew to 86,801 on June 30, 2022, then decreased to 84,034 on June 30, 2023. It then increased to 86,634 on June 30, 2024 (up 3.1% from the prior year) and decreased slightly on June 30, 2025 to 86,061 (down -0.7%). (Page 50)
- The number of offenders with either a life or a death sentence grew for thirty-one years increasing from 4,549 in 1990 to 13,951 in 2020. This population saw its first decline in 2021, decreasing to 13,819. In 2022, it increased to 13,889, and increased to 14,174 in 2023. It then increased to 14,459 in 2024 and to 14,709 in 2025. In 1990, 10.6 percent of inmates were serving a life or death sentence on June 30. In 2025, this percentage had increased to 16.5 percent. (Page 51)

- The percent of offenders with sentences for life, death, or within the purview of 10-20-Life, has risen over the years. As of June 30, 2025, 28.5 percent of the prison population was made up of offenders with one of these sentences. (Page 52)
- The prison population on June 30, 2025 was 89,087, an increase of 2.0 percent from June 30, 2024. (Pages 53 and 55)
- The number of **prison inmates per 100,000 Florida population** rose in FY 24-25 to 381.1 This is the fourth year in which the incarceration rate increased after eleven years of declining numbers. In the prior 30 years, the incarceration rate had grown from 202.3 (in FY 79-80) to 543.7 (in FY 09-10). This rate had remained relatively flat between FY 94-95 and FY 01-02, but had risen each year between FY 2-03 and FY 09-10. (Pages 53 and 54)
- The **age distribution of prison admissions** has changed significantly since FY 99-00. While the percentage of 18 to 24 year olds has declined, the percentage of those older than 50 has grown steadily. However, there have been shifts for both in recent years. After a year where percentage of prison admissions remained flat for 18 to 24 year olds and declined for 50-59 year olds, both have returned to prior historical trends in FY 21-22, FY 22-23, FY 23-24, and FY 24-25, with the percentage of 18 to 24 year olds decreasing, and the percentage of 50-59 year olds increasing. Additionally, the percentage of 35 to 49 year olds continues to surpass the percentage of 25 to 34 year olds. (Page 56)
- The **top five offenses by age group** varied considerably across admissions in FY 24-25, with several top crimes for older age groups connected to prior criminal history. (Page 57)
- The **age distribution of the prison population** has also changed significantly since June 30, 2000. While the percentage of 18 to 24 year olds has declined, the percentage of those older than 50 has grown steadily, with inmates aged 50 to 59 and inmates aged 60+ now making up a greater share of the prison population than 18 to 24 year olds. Furthermore, after staying relatively flat for a decade, the percentage of those 25 to 34 has now experienced a steady decline over several years. (Page 58)

Source: Monthly status file of prison population prepared by Bureau of Research and Data Analysis, Department of Corrections. This file contained 94 percent of new commitments, however county of commitment is sometimes missing. According to DOC, offenders entering prison near the end of the month may not have this information available by the time the status file is run at the end of the month. It was assumed that these missing data would not bias the county of commitment distribution. Therefore, these numbers were inflated to match new commitment totals.

Source: Monthly status file of prison population prepared by Bureau of Research and Data Analysis, Department of Corrections. In FY 24-25, this file contained 94 percent of new commitments however sentencing details are often missing. According to DOC, offenders entering prison near the end of the month may not have this information available by the time the status file is run at the end of the month. It was assumed that these missing data would not bias the primary offense distribution. Therefore, the primary offense distribution was adjusted to match new commitment totals for this analysis.

FLORIDA NEW COMMITMENTS WITH YEAR-AND-A-DAY SENTENCES

Jul-Nov 24 and Jul-Nov 25

	Time period		Percent		Change	Percent Change
	Jul 24-Nov 24	Jul 25-Nov 25	Jul 24-Nov 24	Jul 25-Nov 25
