Local Option Fuel Taxes

Revenue Estimates for the Local Fiscal Year Ending September 30, 2027

	1 to 6 Cents Local Option Fuel Tax Imposed on Motor and Diesel Fuels			1 to 5 Cents Local Option Fuel Tax Imposed on Motor Fuel Only		
	Motor Fuel Tax Rate	FY 2026-27 Distribution Percentage	FY 2026-27 Estimated Distribution	Motor Fuel Tax Rate	FY 2026-27 Distribution Percentage	FY 2026-27 Estimated Distribution
Local Government						

Notes:

- 1) The dollar figures represent a 100 percent distribution of estimated monies.
- 2) As a result of statewide equalization, all counties levy the 1 to 6 cents local option fuel tax on diesel fuel at the maximum rate of 6 cents. Consequently, the rates listed in that particular column are for motor fuel only.
- 3) The revenue estimates are based on the total number of cents imposed by the counties as reflected in the table with the following exception. For those counties that do not currently impose the 1 to 5 cents local option fuel tax, a separate revenue estimate is provided. This estimate represents a countywide distribution based on a hypothetical 1 cent per gallon levy and is provided for those officials that may be considering a future tax levy.
- 4) Revenue estimates are based on FY 2026-27 distribution percentages specified by either locally-determined interlocal agreement or statutory default formula if no interlocal agreement has been established. Examples of factors used in interlocal agreements to determine distribution percentages include lane miles, population, roadway miles, and transportation expenditures. Under the statutory default formula, the distribution is based on the transportation expenditures of each local government for the immediately preceding five fiscal years as a proportion of the total of such expenditures for the county and all municipalities within the county. These proportions are recalculated every ten years based on the transportation expenditures of the immediately preceding five years.
